Department of Water Resources of Idaho
Donald V. Shaff

Mr. Shaff

I am writing you to give you some history on the property in Idaho (water claim # 83-10071).

My father bought the property from a man named Charles Remer.

He and his family lived there full time. They had a cattle ranch there. They also had more property than the 120 acres my father bought. The other property is part of the Dworshak Reservoir. Richard Remer his son has a 40 acre property which is next to the 120 acres. The Remers used the water for their cattle and other livestock. I believe they bought the ranch around 1960 to 1961.

I think they bought the ranch from some other rancher.

I hope this helps.

Thank You Patrick James Linsley
