

25-12253

Estimate PWC to be 125'
based on SWL in several
nearby wells. Claimant
said well was 140' deep.

$$Q = \frac{3HP \times 8.814 \times 70\%}{(2.31 \times 40) + 125'}$$

$$Q = 0.09 \text{ cfs}$$
