

6/6/2003

I spoke with Brad Bowen this morning regarding 25-12253. He informed me that, although the well was being used for domestic purposes for many years previous to 1977, it was not being used to irrigate his 0.6 acres of lawn until he purchased the place in 1977. I informed him that we would be recommending his claim for domestic use only, with up to $\frac{1}{2}$ acre of irrigation for his lawn. He seemed content with that - Brad was in the process of gathering EOP.

Brad called this morning saying that he had talked with a former owner of the well and learned that he had used the well for the irrigation of an orchard. A large storage tank was located in the basement for that purpose.

Brad is planning on submitting affidavits as evidence of priority soon.
