Department of Water Resources

Donald Shaff

My name is Mildred Lindsay. My late husband James D. Lindsay owned property in Idaho near Orfino. We bought the property in 1969 from a family that lived on the property.

After my husband retired we wanted to spend our summers there. In 1987 we put in a gate, repaired road and added roads. We ran a gravity flow pipeline from Cole Creek to some storage tanks. We used the water for our live stock and ourselves. We had a trailer on the property which we lived in.

Winter of 1993 people broke into our trailer and storage shed. They stole everything and ruined the trailer. The end of 1993 my husband pulled out the trailer.

My son and his wife own the property now and plan on using it.

Sincerely

Mildred Lindsay
