To Whom It may Concern:

Brent Call has asked that I review the time the water wells were put in Menan Produce bldg. to my recollection Menan Produce was built in 1945-1946 by Sid Brown. One pump was installed at that time of approximately 2 H.P. In 1950 Menan Produce was purchased by John T. Pook, (Rulon Jones), for Tucker and Preston Ellsworth. In 1952 I bought in as a partner replacing for Tucker. In 1953 we updated our equipment and enlarged the warehouse. I installed an additional 3 H.P. pump to meet the water required at that time to wash and clean the potatoes. To my knowledge and Mr. Call's no water have been added since.

Sincerely,

Elmer F. Ellsworth
