

8/25/2003

25-12025

Donnel corrected map by showing the portion that was flood irrigated as of 1987. P/D has been moved in 2003 and Pou is now being sprinkle irrigated.

Claimed Pou is being primarily irrigated by sprinklers from a pump in the Innis Slough. This was begun about 10 years ago. Claimant says canal shares can be dumped into slough if necessary. This pump was measured by me and is described as A0007704 in WMIS. Donnel says the canal never has to dump shares in the slough because there is always enough wastewater available. Illegal diversion?

25-12025

From WMIS:

A0007705

P/D N 295574.90
E 664346.30

ON 7/8/2002 I MEASURED
682 GPM, PORTABLE
PUMP TO DITCH FOR FLOOD
IRR.

4/20/1998 AND 7/17/2001 SITE
VISIT NOTES SAID DIVERSION
HAD BEEN UNUSED FOR MANY
YEARS.

SOURCE FOR THIS PUMP
IS SCOTT SLOUGH. THIS IS
1987 P/D.

~~25-11512~~

From NMIS:

A0007704

P/D N 295912.00
E 664499.20

ON 7/17/2001 I MEASURED
921 GPM WITH 183 BIRDS
IN OPERATION. OPERATES
BETWEEN 180 + 200 BIRDS @
5.03 GPM PER BIRD.

SOURCE APPEARS TO BE
ANNIS SLOUGH.

THIS PORTABLE PUMP IRRIGATES
POU CLAIMED UNDER 25-12025.
