

I, Keith Christensen, remember real well going to my Aunt Edith and Uncle Vestal Christensen's and played on this ditch as well as fixing rat holes and taking beaver dams out. The water from the ditch was used to irrigate a large vegetable garden and lawn. This was all taking place during the 1940's. I especially remember being there on July 4, 1942. We traditionally spent July 4th there. This little ditch provided ample water to do this amount of irrigating.
