

8/25/2003

25-11512

Met with Donnel Weber. While he believed that his ground was being irrigated previous to his claimed priority date, he was unable to provide evidence supporting an earlier date.

The source for this WR is Annis Slough, which is called by some the Hy Poole or the Hymn Poole Slough.

The 2 claimed P/D were located. A third P/D was also located, which claimant said was in existence about 20 years ago. P/D #3 is in close proximity to P/D #2.

POU corrected by claimant. see map.
POU is flood irrigated.

See photos for GPS coordinates.
