WHEREAS, there is to be developed on the first mentioned tract of land, a well, together with pump and motor used in connection therewith, belonging to WILLIAM E. BAUCOM and BEVERLY J. BAUCOM, husband and wife, Grantees;

WHEREAS, Grantors have heretofore sold to Grantees the 75 horsepower booster pump and motor that is currently in use in the pumping system and said 75 horsepower booster pump and motor shall be the property of the Grantees, their heirs and assigns.

WHEREAS, Grantors have retained ownership of a 25 horsepower booster pump and motor which is a part of the pumping system herein described.

NOW, THEREFORE, know all men by these presents: That we, RICHARD TAGGART, JR. and DIANE TAGGART, husband and wife, Grantors, of Nampa, Canyon County, Idaho, in consideration of the sum of TEN AND NO/100 DOLLARS (\$10.00) and other valuable considerations to us in hand paid by WILLIAM E. BAUCOM and BEVERLY J. BAUCOM, husband and wife, Grantees, the receipt of which is hereby acknowledged, and subject to the conditions hereinafter set forth, do by these presents, grant, sell and convey unto WILLIAM E. BAUCOM and BEVERLY J. BAUCOM, husband and wife, Grantees, of West Jordan, Salt Lake County, Utah, an easement to drill, develop and operate

a well, casing, pump and motor and the right to take sufficient water, up to five-sevenths (5/7) of that available, from said pond and to convey such water from said pond and well to their above described tract of land as is necessary for irrigation purposes, by pipe, hereby granting to WILLIAM E. BAUCOM and BEVERLY J. BAUCOM, husband and wife, Grantees, for the use and purpose of conveying such water as aforesaid, an easement on, in, over and across a strip of land of sufficient width to maintain said pipe, beginning at said pond and well and extending from there to the east boundary of the first described tract of land and from there along the said east boundary to the second described tract of land, together with sufficient land at the site of the well for a sump, if necessary, and for maintenance of said well, pump and motor.

The Grantees shall have the right to use the 25 horsepower booster pump when necessary and shall have an easement for said purpose. The Grantees shall have the further right to use five (5) or more lines of water, provided that such usage does not prevent Grantors from using two (2) lines, and the Grantors shall have the right to use up to two (2) lines of water from the system, including the well. If sufficient water is not available, the parties shall have the right to share proportionally in the water.

Subject to all the terms and conditions of this Agreement, the Grantees shall have the right to use the excess water.

This conveyance is made on the condition that the Grantees, their heirs and assigns, shall bear the costs connected with drilling said well and purchasing and installing said pump and motor.

This conveyance is made on the condition that the Grantees, their heirs and assigns, shall bear all expenses

connected with the operation of said pump and motor and keeping the same in repair and all the expenses connected with the maintenance of said well and all things accessory thereto.

This conveyance is also made on the condition that the Grantees, their heirs and assigns, shall keep and maintain the pipe in good order. Provided, however, in the event either party, or their agents, lessees or employees, damages said pipe or irrigation system, whether by negligence or not, that party shall be liable for all necessary repairs.

This conveyance is made on the further condition that the Grantees, their heirs and assigns, shall clean and maintain the pond and shall dispose of the dirt as directed by the Grantors, their heirs and assigns.

This conveyance is made on the further condition that the Grantees, their heirs and assigns, shall:

- a) pay all electricity for pumping, and
- b) pay the entire bill for excess water by March 31 of the year it is due.

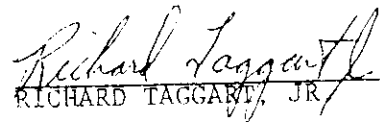

This conveyance is made on the further condition that either party, their heirs and assigns, may after three years from the date hereof, terminate this Agreement with regard to water usage only and by so doing require the Grantees, their heirs and assigns, to bury a mainline pipe from their well and along the easement hereinabove described to their property hereinabove described. If either party, their heirs and assigns, so terminated this Agreement, Grantees would have no further right to use water from the pond and Grantors would have no further right to use water from the well. The parties would be relieved of all corresponding obligations at the same time.

This conveyance is also conditioned by the requirement that the Grantees shall not at any time shut off the Grantors' electricity or interrupt the flow of irrigation water to the Grantors' property; in other words, the pumping system shall remain in operation at any time either party wants to use it.

In the event any of the conditions are breached, the Grantees will be required to immediately bury their own mainline along the easement as set forth above and terminate all use of the water from the pond, and the mainline of Grantors.

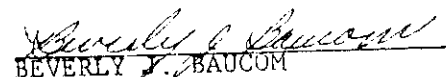

To have and to hold said right and easement to take water and conduct same on, over, through and across, the land of the Grantors, subject, however, to the above conditions unto WILLIAM E. BAUCOM and BEVERLY J. BAUCOM, husband and wife, their heirs and assigns forever.
