A note from...

To Whom it may concern:

I grew up on a farm west of Piquette and attended school there until I graduated in 1948. My sister and I rode the school bus that picked up children who lived on the property now owned by Bart Stouckell and in the home across the road.

When my sister and I were in grade school we were allowed to walk home on the last day of school. That was an adventure for us, and we stopped at friendi homes along the way. Our friend even ~~had~~ ^{had} a white who lived on the property that is now ~~Rancho~~ ^{Rancho} the school we got drinks at ~~there~~ ^{there}.
