Re: Adjudication Claim for water right no. 25-10024

Dear Mr. Tanner:

This past week I had the opportunity of visiting the site location for the above referenced water right. For simplicity sake, it relates to the homes and outbuildings area associated with the Samuel and Naomi Butikofer place. Originally, the Butikofer's claimed up to three acres of irrigation for this area. My visit shows that about 1 acre of irrigation is probably appropriate given the continued presence of the buildings and corrals.

For your convenience, I have included a copy of an infrared aerial photograph taken in 1987. Areas irrigated show up as red. I outlined areas irrigated in yellow based upon the photograph and from the site visit as best as I could determine. I request that you or your representative review this and return any comments you might have back to me.

Last but not least. We require that you file a change of ownership for this water right if indeed you now own it. We have sent you the appropriate form before but have also included a new one in case of it being misplaced. Since we are presently conducting reviews of your area, I ask that you please fill out the change of ownership form and return it within the next 30 days. **Failure to do the change of ownership will make it difficult to prepare a favorable recommendation to the adjudication court, which may result in the loss of the water right.**

If you require any assistance or have any further questions in this regard, please feel free to call me at 525-7161.

Sincerely,

W. Roger Warner
Adjudication Agent

Dear Claimant in the Snake River Basin Adjudication (SRBA):

About 13 years ago you or your predecessor filed with the Idaho Department of Water Resources a claim to water right in the Snake River Basin. The investigation phase of this process is now focused on your area, Basin 25.

You are invited to attend a **public meeting to be held on March 10 at 7:00 p.m. in the West Coast/Red Lion Hotel, 475 River Parkway, Idaho Falls, Targhee and Bonneville Rooms.** The purpose of this meeting is for (1) the Department to update you on how the adjudication process works, and (2) for you, the claimant, to express concerns or discuss problems relating to water delivery in your area. This will help us to understand from an historical perspective the use and delivery of your water right.

Throughout this summer our adjudication staff, primarily from our Eastern Regional Office but also at times from Boise, will be contacting various water users in Basin 25. We ask for your cooperation in this process – the better we understand your water rights the better chance of you receiving an accurate decree from the SRBA Court that fully describes your water rights.

This investigation effort is being conducted by an experienced and successful staff. During recent years, this staff has accurately investigated and reported water rights in neighboring basins including the Big Lost River, the Little Lost River, Birch Creek, Camas Creek and the Portneuf River.

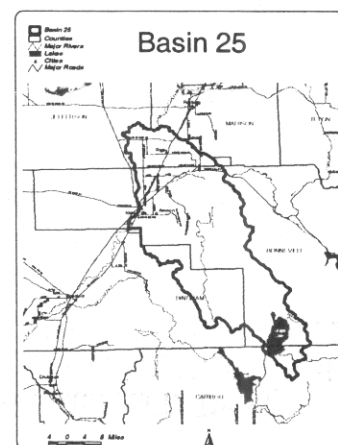

Please contact the Idaho Falls Office with any questions.

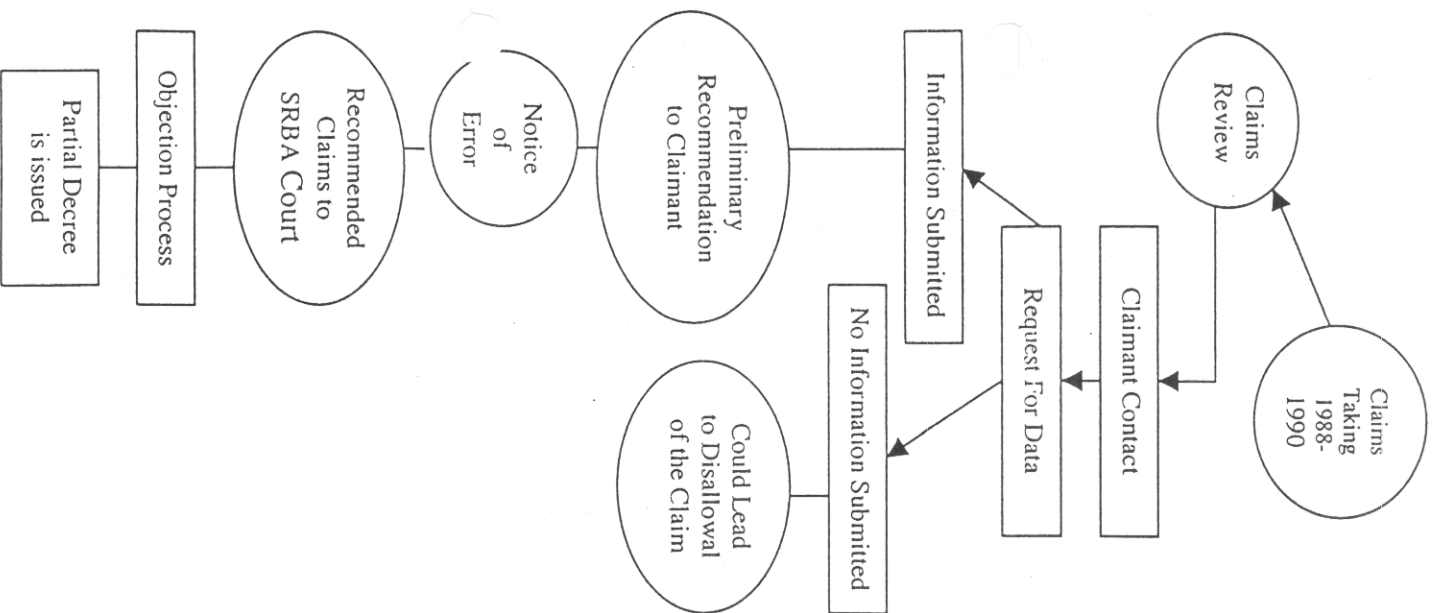

Sincerely,

A handwritten signature in cursive script that reads "Ernest Carlsen".

Ernest Carlsen
Adjudication Supervisor, Eastern Region

Enclosure: Information Brochure

Questions and Answers:

Q: Why now? I adjudicated my water rights in 1989.

A: You filed your claims in 1989.

Now we are investigating those claims to make accurate recommendations to the Fifth District Court.

Q: If I furnish more information will you take away my water right?

A: The State does not want your water right. We ask for additional information so that we may make accurate recommendations of Beneficial Uses of the water rights. Our schedule is very tight – we need the info ASAP.

Q: How much more money do you want?

A: You paid for your claim in 1989, or so. There might be additional fees only in extenuating circumstances, such as additional acres or new claims.

Q: How come you want me to file another claim?

A: If we suggest you file additional claims it means we have found

additional uses of water to which you may be entitled, or we have identified additional acres.

Q: What about my Domestic well and Stockwater?

A: There is no statutory requirement to file either; but IDWR accepts your Domestic and/or Stockwater claims.

The Tools We Use:

In the evaluation of water right claims and preparation of recommendations the adjudication staff utilize:

- State-of-the-art computer technology.
- High resolution 1987 NAPP photography to identify the place of use.
- Global Positioning System (GPS) used to pin-point points of diversion or detail significant features.
- Prior decrees, licenses and transfers.
- Water measurements for claims based on beneficial use.
- Watermaster records
- Historical records
- Claimant input and participation

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication

Dear Claimant:

The Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Blackfoot River, Willow Creek and South Fork of the Snake River Drainages. This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that personnel from Intrepid will make an effort to contact claimants to arrange for conducting a field investigation and obtain information about your water use. IDWR requests that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights. Information collected during this process will be reported to IDWR and used by a Senior Water Resource Agent to prepare a recommendation on the water right.

The process of adjudicating water rights is straightforward for most people, resulting in the issuance of decreed water rights. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

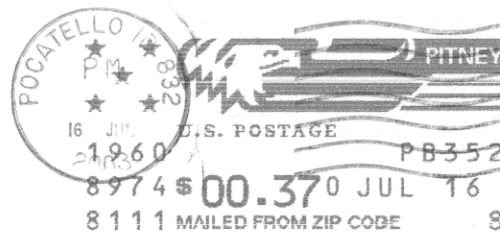

If you have sold your property, we request that you forward this letter to the purchaser. The new owner is responsible for advising IDWR of the change in ownership so future correspondence will be mailed to the correct party. If you are unable to forward this letter, please send any information regarding a new owner to our Eastern Regional Office located at 900 N Skyline Dr, Idaho Falls, ID, 83402, Attention: Jennifer Crabtree (208) 525-7161.

Sincerely,

Ernest Carlsen
