Subject: John Amonson

Met with John Amonson Wednesday regarding 74-385, 386 and 1618.

On 385 and 386 he said he'd informed you that no use was taking place on the BLM in SWNE of Sec 22 as the prelim recommend says.

On 1618 he said there was no irrigation taking place in the NENW and the NWNE of Sec 26 but he couldn't remember if he'd informed you on that. Could you please check on this one and see if he requested those acreage be moved off BLM?

thanks, al
