Subject: 74-8B

I noticed you had settlement paperwork here for 74-2264B and said you'd address 74-833 as well. However, ~~74-833~~ shows the same use in the NWSW of Section 17. I investigated this land yesterday and there is no irrigation use on the BLM (north half of the 40). Verdell Olson agreed with me on defining the WR better.

Please limit the use to the South half of the NWSW on 74-8B as well.

thanks, al
