1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): lower

2 acres (approximately) In the right corner of the NWNW section and
6 acres (approximately) In the upper right corner of the SWNW section
that you have marked as not being irrigated.

2. Describe the changes you wish to make in the proposed recommendation:

Include the 2 acres of the lower right corner of the NWNW section and
the 6 acres of the upper SWNW section in the irrigated ground.
Put the red overlay on the property boundaries. Place of use should be
reflected as we've marked on the map in blue ink.

3. Give a brief explanation as to why you disagree with these portions:

I have government maps that show ditches on this ground. I'm the third
generation on this ranch and that ground has been irrigated for as long
as I can remember. Your red boundary lines are not square with the property
boundaries.

 I AGREE with this proposed recommendation: no changes need to be made.
