COMES NOW, Carlene Smith ("Smith"), and Paul Batruel, Mary Batruel and Batruel Dairy ("Batruels"), parties to the above-captioned subcases (herein jointly referred to as "the parties"), by and through their attorneys of record, and hereby stipulate to the resolution of their respective objections/responses as follows:

1. The parties agree that Smith shall file the Motion to Amend Claim for water right no. 61-04038 which is attached hereto as Exhibit A, and that Batruel shall not oppose such Motion, and that Batruel shall not oppose the decree of water right no. 61-04038 as set forth in Exhibit A, *provided, however,* that in the event water right no. 61-04038, as described in Exhibit A, is subsequently changed through settlement with or action by IDWR or through judicial proceedings, Smith agrees that she will not

allow any element of the water right to be increased (i.e. increases to quantity, purposes of use, season of use, number of irrigated acres, or changes to a more senior priority date or different points of diversion) unless expressly agreed to in writing by the parties; Smith, however, may without the prior approval of Batruels permit the location of the irrigated acres to be changed to other locations on Smith's land so long as the change does not increase the total number of irrigated acres set forth on Exhibit A hereto.

2. The parties agree that they will not oppose the decree of Water Right nos. 61-293B, 61-293D, 61-299, 61-303A, 61-303B, 61-304A, 61-304B, 61-370, 61-2000B, 61-4113, and 61-11921 as set forth in the Standard Forms Five for each of the above referenced water rights attached hereto as Exhibit B.
3. It is contemplated by the parties that Smith will file the Application for Transfer of Water Right no. 61-293D that is attached hereto as Exhibit C after water right no. 61-293D is decreed by the SRBA District Court. Batruels hereby agree that they shall not protest the Application for Transfer of Water Right no. 61-00293D.
4. Smith's objections to all of the water rights referenced in paragraph 2 above shall be dismissed with prejudice.
5. Batruels' objections and responses to all of the water rights referenced in paragraph 2 above shall be dismissed with prejudice.

6. Smith agrees that she will file no additional objections or responses to any water right(s) currently recommended as either allowed or disallowed by IDWR to Batruel as the owner.
7. Batruels agree that they will file no additional objections or responses to any water right(s) currently recommended as either allowed or disallowed by IDWR to Smith as the owner.
8. The parties agree that they will make good faith efforts to obtain the signatures and concurrences of third parties and IDWR, as the case may be, on the Standard Forms Five referenced in paragraph 2, above. However, in the event, the parties are unable to obtain the required signatures and concurrences and the further legal action is required against such third parties and/or IDWR, this agreement and stipulation, including the exhibits hereto which are incorporated herein by reference, shall remain binding on the parties.
9. The parties agree that the priority dates for water right nos. 61-293B, 61-293C, and 61-293D should have the same priority date and be of equal priority. The parties further agree that the priority date for water right no. 61-11921 should have a priority date of at least one day senior to water rights nos. 61-293B, 61-293C, and 61-293D, and that water right no. 61-04038 should have a priority date of at least one day junior to water right nos. 61-293B, 61-293C, and 61-293D. INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even-number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase." You must use a **separate form for each** late or amended Notice of Claim.

This form has been adopted by the court in **SRBA Administrative Order 1, Rules of Procedure** (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

By filing a *Motion to File a Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

I have read **SRBA Administrative Order 1, Rules of Procedure** (amended Sept. 30, 1996).
I am an attorney representing Carlene Smith.

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A *Motion to File a Late Notice of Claim* may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires.

Ms. Smith must amend her Amended Notice of Claim to the use of water in the SRBA because the original amended claim to this water right did not specify the correct priority date and source, and improperly listed points of diversion and other places and purposes of use. After negotiations with IDWR and the other Party to this subcase, it has been determined that the original amended claim to this water right does not reflect its historical use.

I have attached:

A fully completed amended Notice of Claim (available from IDWR).

VERIFICATION (Must be completed)

Further, Buyer agrees to maintain and care for Grantor's premises, not to commit waste on the same, and to leave the same in as good condition as it was previously, after the conclusion of any necessary repairs.

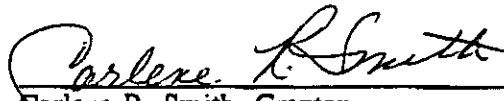

E. Further included in this sale are all water rights and ditch rights for the irrigation of the property being sold. With reference to the rights retained, Grantor retains the water right in the Sand Springs Gulch water for the lower portion of the Gulch as evidenced by court decrees pertaining thereto, as memorialized in Claim No. A61-04038 as filed in the Snake River Basin Adjudication, and a supplemental right from the water right for the upper portion of the Gulch.
