I went on site with Stan Hawkins in the summer of 2004 to look at his claim which uses the same Spring as Claim 25-14078.

Mr. Hawkins stated that the house in question on Claim 25-14078 (The McCarty House) was brought in during the 1980's and the resident only stayed 1-1 1/2 years. There was no visible or viable hookup from the Spring to the house as the house is uphill from the Spring.

Mr. Hawkins stated that the resident probably just took buckets of water from the Spring to the house for his use. This house was supposedly trucked in, intact, rather than built on the site.
