	)	CONCLUSIONS OF LAW

	)	FOR WATER RIGHTS 51-11921, 51-
	)	11925, and 51-11936

I. FINDINGS OF FACT

A notice of claim was filed for the above listed water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water resources examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of these water rights. These water rights were claimed by the United States of America, Bureau of Land Management, based upon state-law, and as federal reserve water rights pursuant to Public Water Reserve 107

On November 9, 2004, the parties to these subcases participated in a hearing pursuant to I.C. § 42-1411A(12) regarding the federal reserve basis of the claims. At the hearing, this Special Master considered the *Affidavit of Fredric W. Price* filed on November 8, 2004, which demonstrates that the above-captioned water right claims meet the elements of valid federal reserve water rights pursuant to Public Water Reserve 107.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the information contained in the *Affidavit of Fredric W. Price*, and upon the comments of counsel at the hearing, IT IS RECOMMENDED that water rights 51-11921, 51-11925, and 51-11936 be **decreed** with the

elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.
