**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, **the seller should be able to provide you with the water right or adjudication claim number(s).** Please enter the number(s) at **Item 1.** Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. **Do not** obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at **Item 3.**
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at **Item 4.** Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. You may have purchased only a portion of the water right(s) held by the seller. If this change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. For each water right requiring a split between owners, fill in the appropriate spaces in the box(es) at Item 6. Copy the page as many times as necessary to fully describe each water right after the change. Include documentation as necessary to describe nonstandard agreements or arrangements regarding division of the water right(s). **If the water right(s) will not be split, skip Item 6 and go to Item 7.**
7. The new owner(s) must sign the form in the space(s) provided at Item 7. If an "and" connector is used at Item 4, all parties must sign this form. If an "and/or" or "or" connector is used, all parties may sign; however, only one of the named parties is required to sign. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.
8. The Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the filing fee is \$25 per water right, except for those water rights which will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right to be divided. When complete, you should retain a copy and return the original form to the IDWR office nearest you:

WHEREAS, Joe W. Eld and Vicki C. Eld have succeeded to the rights and obligations of Eld Ranches, Inc. under the September 1, 1988 Supplemental Agreement; and

WHEREAS, the parties intend to modify the provisions of the prior Supplemental Agreement on Transfer of Water Rights by this Amended Agreement to document retroactively revisions to that prior Supplemental Agreement on Transfer of Water Rights that the parties already have implemented and fulfilled.

NOW, THEREFORE, for good and valuable consideration, the receipt of which by all parties hereto is hereby acknowledged, the parties, intending to be legally bound, agree to modify the Supplemental Agreement on Transfer of Water Rights dated September 1, 1988, by eliminating and striking from the Supplemental Agreement on Transfer of Water

Rights dated September 1, 1988, the paragraphs numbered 2, 3, and 4 (two, three, and four) and inserting in their place the following paragraphs numbered 2, 3, and 4 (two, three, and four):

2. Seller also has a right to irrigate 77 acres of real property which is not part of this sales transaction from the Boulder Creek water above described. It is presently necessary to irrigate those 77 acres by means of an exchange right – The Boulder Creek water is conveyed into an irrigation ditch and then taken from such ditch at a distance downstream. It would be more convenient to both parties to have all of the Boulder Creek water rights applied to the real property sold herein (499 acres, more or less), and have the 77 acres retained by Seller irrigated from the Roseberry Irrigation District. Furthermore, the State Department of Water Resources discourages the fractional splitting of water rights, which would be required if Seller continued to irrigate 77 acres outside of the subject property with the Boulder Creek water.
3. Therefore, Seller and Buyer agree hereafter to remove 77 acres of the subject property from the Roseberry Irrigation District, and that the Boulder Creek water rights described above will be used to irrigate said 77 acres, in lieu of using that water for the 77 acres retained by Seller. It will be necessary for Buyer to apply for a change of place of use permit on the Boulder Creek water rights, to ensure that the 77 acres removed from the irrigation district will receive the priority dates and rights to the Boulder Creek water. All costs and fees associated with such change of place of use permit will be borne by Seller, and Buyer agrees to cooperate fully in executing any papers, applications, or documents necessary to effectuate said transfer. It shall be the sole responsibility of Seller to transfer the water rights within the Irrigation District from the 77 acres removed to the 77 acres retained by Seller. Seller does hereby convey, release, remise and forever quitclaim unto Buyer all of Seller's right, title and interest in and to Idaho Water Right No. 65-2515. Buyer does hereby convey, release, remise and forever quitclaim unto Seller, Buyer's right title and interest to any Roseberry Irrigation

District water rights appurtenant to the 77 acres described in paragraph number 4 below.

4. The 77 acres from the subject real property to be removed from the Roseberry Irrigation District are described as follows:

E1/2NE1/4SW1/4, Section 1, Township 16 North, Range 3 East, B.M., Valley County, Idaho (20 acres);

SE1/4SW1/4, Section 1, Township 16 North, Range 3 East, B.M., Valley County, Idaho (40 acres);

S1/2SW1/4SW1/4, Section 1, Township 16 North, Range 3 East, B.M., Valley County, Idaho (15 acres); and

W1/2NE1/4SW1/4, Section 1, Township 16 North, Range 3 East, B.M., Valley County, Idaho (2 acres).

The parties expressly agree that this Amended Agreement modifies the Supplemental Agreement on Transfer of Water Rights dated September 1, 1988, which is made a part by reference, and that all terms, conditions, and provisions of the Supplemental Agreement on Transfer of Water Rights dated September 1, 1988, unless specifically modified herein, are to apply to this Amended Agreement and are made a part of this Amended Agreement as though expressly rewritten, incorporated, and included herein. The terms of the Supplemental Agreement on Transfer of Water Rights dated September 1, 1988, as modified by this Amended Agreement, shall be deemed to have been in effect as of September 1, 1988, and this Amended Agreement shall relate back to and be effective as of September 1, 1988. The eliminated and struck paragraphs in the Supplemental Agreement on Transfer of Water Rights dated September 1, 1988 shall be deemed to have no force or effect. Fulfillment of this Amended Agreement shall be

accepted as full performance and discharge of the Supplemental Agreement on Transfer of Water Rights dated September 1, 1988. This Amended Agreement, as it modifies the September 1, 1988 Supplemental Agreement on Transfer of Water Rights, is the complete agreement of the parties as to the matters discussed herein, any prior written or oral agreements of the parties as to the matters discussed herein being superceded and replaced by this Amended Agreement. This Amended Agreement only may be amended by a subsequent written agreement of all the parties hereto or their respective heirs, personal representatives, executors, successors or assigns. This Amended Agreement may be signed in counterparts.

Transfer No. 4726 was filed to change the place of use under a portion of Right No. 65-02515. The transfer applicant owns the portion of Section 13 from which 77 acres are being removed.

The applicant has sold a portion of the licensed acres in Section 02 and additional land in Section 01, including the 77 acres identified on the transfer application as the new place of use, to Eastern Western Corporation. The end result of the transfer will be the irrigation of all 144 acres on adjacent land located in Sections 01 and 02 owned entirely by Eastern Western Corporation. (Sections 01, 02 & 13 located within T16N, R03E.)

No attempt to contact the watermaster of Water District 65D was found in the file. I spoke with the watermaster today and he was aware of the proposed transfer and had no concerns about approval. He felt the change would not impact other users.

No change is proposed to the diversion or the existing ditch and the place of use is owned entirely by the new property owner. The transfer approval has been prepared identifying Eastern Western Corporation as the owner per attached documentation to the application.

Recommended conditions include watermaster control, measuring device, irrigation overlap and standard transfer conditions.
