Idaho Falls, Id.
83402

Dear Mr. Holliday

We are in receipt of your letter addressing the priority date of our water right dating back to 2-15-1946. The commercial and agricultural operations on our property along the Snake River have been consistent and ongoing since 1946. This is very well known public and common knowledge that has been passed down from generation to generation and manager to manager. We cannot find anyone alive that can personally verify specifics relating to water rights issues, but to my knowledge, no water rights have ever been sold or forfeited. Please consider my notarized statement to these facts as evidence of our priority date.

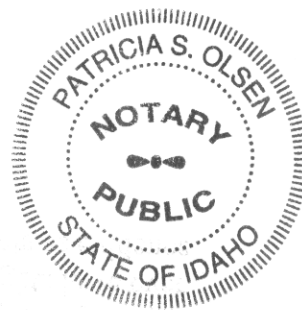

Thank you,

Bruce Davis
General Manager

Patricia S. Olsen
Notary
