FAX: (208) 522-9701

I, Jay Rowley, do hereby state that the Amcor Precast rock crushing plant located at 2240 South Yellowstone Hwy. has been operational since 1962. Water is pumped out of the Snake River to initially charge the settling ponds. The water is used to wash the crushed aggregates and sprinkle the stockpiles for dust abatement. The run off water is recaptured in the settling ponds and then recycled.

Jay Rowley
Amcor Production Manager (Retired)
