QUITCLAIM DEED

THE UNITED STATES OF AMERICA, hereinafter **GRANTOR,** acting by and through the Bureau of Reclamation, Department of the Interior, pursuant to the provisions of the Minidoka Project Act of November 3, 1998 (Public Law 105–351, 112 Stat. 3219), and for good and valuable consideration as detailed in said Act, does hereby **REMISE, RELEASE, AND FOREVER QUITCLAIM** to **BURLEY IRRIGATION DISTRICT,** an irrigation district duly organized under the laws of the State of Idaho, of 246 East, 100 South, Burley, Idaho 83318, hereinafter **GRANTEE,** all of its right, title and interest, without warranties, in and to those portions of the natural flow, waste, seepage, return flow, and groundwater rights held in the name of the **GRANTOR** for the benefit of the Minidoka Project or specifically for the **GRANTEE,** situated in the County of Cassia, State of Idaho, to wit:

1. Water Right No. A01-00211

This natural flow water right held by The United States has a priority date of March 26, 1903 for the diversion of 1,726 cubic feet per second (cfs) from the Snake River for the irrigation of lands within the Minidoka Project, under the canals of the Minidoka Project in Minidoka and Cassia Counties, Idaho.[1] The United States conveys a portion of this right (hereafter A01-00211B) to Burley Irrigation District (hereafter Burley) and retains a portion of the right (hereafter A01-00211A) for Minidoka Irrigation District (hereafter Minidoka) to be used as provided by contract with The United States.

a. The water right conveyed to Burley, Right No. A01-00211B, is defined with the following elements:

Source is the Snake River.

Priority Date is March 26, 1903.

[1] This natural flow water right was established by decree of the Fourth Judicial District of Idaho on June 20, 1913 in the case of Twin Falls Canal Co. v. Charles N. Foster as Right No. 3 of The United States at p. 31.

EXHIBIT 1

Quantity is for the diversion of a maximum of 1,200 cfs from the Snake River. In the event Burley and the Secretary of the Interior on behalf of Minidoka do not agree on a distribution of water that the districts are collectively entitled to under rights A01-00211B and A01-00211A, for whatsoever reason, the water will be divided proportionately with Burley entitled to the delivery of water equivalent to thirty-eight percent (38%) and Minidoka entitled to the delivery of sixty-two percent (62%) of the total water available under said rights up to a maximum of 1,726 cfs.[2]

Season of Use is a period each year beginning April 1 and ending October 31 of that year.

Nature of Use is for irrigation.

Place of Use is 48,000 acres within the boundary of Burley.

Points of Diversion are

Township 9 South, Range 25 East of the Boise Meridian, Cassia County, Idaho

2. Water Right No. A01-00214.
This natural flow water right held by The United States has a priority date of August 6, 1908, for the diversion of 1,000 cfs from the Snake River for the irrigation of lands within the Minidoka Project.[4] The United States conveys a portion of this right to Burley (hereafter A01-00214B) and retains a portion of the right for Minidoka (hereafter A01-00214A).

a. The water right to be conveyed to Burley, A01-00214B, shall be defined with the following elements:

Source is the Snake River.

Priority Date is August 6, 1908.

Quantity is for the diversion of a maximum of 544 cfs from the Snake River. In the event Burley and the Secretary of the Interior on behalf of Minidoka do not agree on a distribution of water that the districts are collectively entitled to under rights A01-00214B and A01-00214A, for whatsoever reason, the water will be divided proportionately with Burley entitled to the delivery of water equivalent to thirty-eight percent (38%) and Minidoka entitled to the delivery of sixty-two percent (62%) of the total water available under said rights up to a maximum of 1,000 cfs.[5]

Section 26: SENW, lots 5 and 6

3. Water Right No. A45-00512

This is a natural flow water right held by The United States with a priority date of April 9, 1909, for the diversion of 150 cfs from Marsh Creek for the irrigation of land of the Minidoka Project within Burley.[7]

a. Right No. A45-00512 is conveyed to Burley subject to the following elements:

Source is from Marsh Creek, a tributary of the Snake River.

Priority Date is March 26, 1903.

Amount is for the diversion of 150 cfs.

Season of Use is a period each year beginning April 1 and ending October 31 of that year.

Nature of Use is for irrigation.

Place of Use is 48,000 acres within the boundary of Burley.

Points of Diversion are

Township 10 South, Range 24 East of the Boise Meridian, Cassia County, Idaho
Section 27: SENE, SESE
Section 28: NWSE
Section 36: SENE, SWNW

Township 10 South, Range 25 East of the Boise Meridian, Cassia County, Idaho
Section 30: SESE, SWSE

4. Foster Decree Return Flows

[7] This natural flow water right was established by decree of the Fourth Judicial District of Idaho on June 20, 1913 in the case of Twin Falls Canal Co. v. Charles N. Foster as Right No. 8 of The United States at p. 33.

a. Allocation of Foster Decreed Return Flows Credits

In reliance upon the Foster Decree (Twin Falls Canal Company v. Charles N. Foster, et al., in the District Court of the Fourth Judicial District of the State of Idaho, in and for the County of Twin Falls, dated June 20, 1913), The United States claims a credit against the use of stored water for increased flows in the Snake River attributable to the operation of the Gravity Division and the Southside Pumping Division of the Minidoka Project as determined by the State Engineer of the State of Idaho (Director, Idaho Department of Water Resources), or his duly authorized agent.[8]

The United States conveys that portion of the right arising from the operation of the Southside Division (approximately thirty-eight percent [38%]) to Burley. The use and accounting of the return flow shall continue in a manner that will not injure the rights of the Minidoka Project or its water users. Current practice for the division of the right considers the proportionate diversions of Burley and Minidoka after ad hoc agreements on the monthly division of waste and losses from the Minidoka Southside Canal. If Burley and Minidoka fail to agree on the division of waste and loss or on the procedure to be used, thirty-eight percent (38%) of the credit will accrue to Burley, and sixty-two percent (62%) to Minidoka.

5. Domestic & Stock Groundwater Rights

a. Water Right No. A45-10389

This Snake River Basin Adjudication (SRBA) partial decreed water right has a priority date of June 19, 1909, for the diversion of 0.12 cfs of ground water for domestic purposes. The United States conveys the entire right to Burley.

b. Water Right No. A45-10391

This SRBA partial decreed water right has a priority date of June 19, 1909, for the diversion of 0.08 cfs of ground water for domestic purposes. The United States conveys the entire right to Burley.

6. Snake River Basin Adjudication Claims (SRBA)

a. Domestic Water Right Claim No. A45-10390

The United States filed for a statutory beneficial use claim in the SRBA. It has a priority date of June 19, 1909, for the diversion of 0.24 cfs of ground water for domestic purposes. The United States conveys its claim to water right, No. A45-

[8] Decree of the Fourth Judicial District of Idaho on June 20, 1913 in the case of Twin Falls Canal Co. v. Charles N. Foster at p. 34.

10390, to Burley. However, Burley shall then be responsible for its ultimate confirmation as a water right in the SRBA proceedings.

b. Groundwater Water Right Claim No. A01-04047

(1) The United States has filed for a groundwater recharge storage claim in the SRBA. It has a priority date of June 19, 1909, and is for the diversion of groundwater and Snake River surface water for the purpose of recharging and storage of groundwater. Because this water right is still necessary to sustain pumping flows for the B Unit of the Northside Pumping Division of the Minidoka Project and any change in ownership could injure project operations, The United States shall retain this right if decreed in the SRBA for the benefit of Minidoka Project Operations, except as provided by the following section.

(2) The United States conveys to Burley its interest in water withdrawn from wells or captured by drains within Burley's boundaries that are used for either the purpose of improving or preserving the utility of land by draining them or for the purpose of recovering groundwater resulting from irrigation by Burley for further irrigation use on or drainage of lands to which the water rights of Burley are appurtenant.

Austin,

This is an exception in many ways. The bottom line: do not try to "shape" this right. If you would put a note (copy this message to the file?) with the folder to alert an agent to the problem that would suffice.

In short, this right will be associated with a delivery organization's boundary, not specific acres like most other rights. These boundaries may have already been done, but acres inside them may not have been.

Doug

a45-00512 lists irrigation as a use on the adjudication record in the file, but there is no place of use listed anywhere. Should we do anything with this?
