Dear Mr. Holmes:

In your letter of November 11, 2004, you asked a question about the remark indicating 12.7 acres could be irrigated under 29-13627 while the place of use lists 42.8 acres. With the new recommendations 29-13627 and 29-4156 are used in combination for the irrigation of 42.8 acres. The recommendation for 29-4156 contains a remark limiting this right to the irrigation of 30.1 acres within the same 42.8 acres. Thus $30.1 + 12.7 = 42.8$.

I hope this answers your question.

RE: *SRBA 39576, Subcase 29-13627 / Carma Smith*

Dear Mr. Carlson:

I was going through with Carma Smith all of the water right stipulations that we have done in conjunction with the Tribe and the IDWR. We appreciate all of your help in getting this matter resolved. The only thing we didn't understand was the statement at the bottom of the page that indicates there is a 12.7 acre limitation on 29-13627. We can't tie that to anything else and we are wondering if it was a statement that was inadvertently left over from some earlier drafts or if we are just not understanding it. Any help you can give us would be greatly appreciated. If you want to e-mail me with a response, that would be fine.

Sincerely,

Thomas J. Holmes
