RE: Transfer of water diversion

Dear Mrs. Fisher:

Regarding your letter sent to Water District #1, dated May 11, 2004, concerning changing your point of diversion for water rights #21-00173 and #21-00022: Unfortunately, you're not able to accomplish this transfer simply by a letter of notification. The Department of Water Resources requires that you complete a *Notice of Transfer of Water Right* (form enclosed) and return it to the department with the appropriate filing fee. Once this has been done, Water District #1 can account for the delivery of your water at the McBee Ditch rather than the old point-of-diversion.

If you're unable to complete the transfer-form yourself, I would recommend you call the Department of Water Resources in Idaho Falls (525-7161) and make an appointment with either Keith Wilson or Dave Carlson to help you complete the form. Any questions concerning the transfer should be directed to them also. After filing the transfer with the Department of Water Resources, you'll want to contact either Brent Saurey or me so we can meet to discuss the appropriate type of structure that is required to meter the water.

Sincerely,

Tony Olenichak
Deputy Watermaster
