8-30-04		

Exam was done on-site with Rhett Bradford who farms the Josie Byrd place. This was on 8-25-2004.

There is a 40hp pump in the Snake River with mainline to sprinklers.

GPS Data - 2724569 Existing GPS Tag # A0012425
1354268 GPS File # - 012079

Projection of GPS point for P.O.D on Arc View project put pump in wrong area on the first side of the River. I had Ryan Mikesell move the point to the correct pump site.

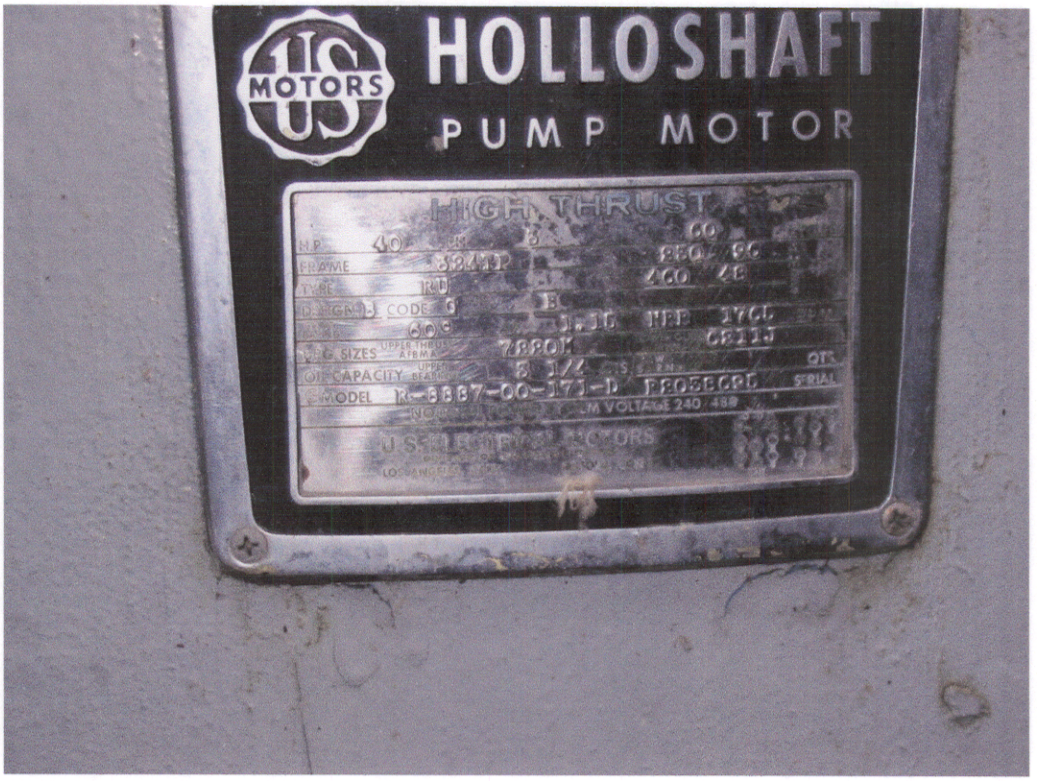

The places of use map & acreages were provided by Sheila Rigby of the USDA, Farm Service Agency. The total irrigated acres under Snake River irrigation was 95.9 acres as opposed to the 180 acres claimed.

Rhett Bradford helped with field boundaries to construct map. Rhett can be contacted at 208-483-3424

Photo # 1 shows the pump station & photo # 2 shows the pump name plate.

Exam done by Arnold Jones of Water Rights Contracting Services
