- 1/ Claiming match licenses. No GPS cruise was done at request of Ernest Carlson, Eastern Region SRBA Supervisor.
- 2/ The RAO should be some portion of the American Falls dam + the SWSB Sec 30 T75 R31E appears to encompass that area.
- 3/ The place of use would probably be the power plant location + that appears to just be in the SWSB Sec 30 T75 R31E also.
- 4/ Exam done by Harold C. Jones of Center Right Contracting Services
