- 1/ Claims match licenses. No GPS course was done at request of Ernest Carlson, Eastern Region SRBA Supervisor.
- 2/ The PAD should be some portion of the American Falls dam + the SWSB Sec 30 T75 R31E appears to encompass that area.
- 3/ The place of use would probably be the power plant location + that appears to just be in the SWSB Sec 30 T75 R31E also.
- 4/ Exam done by Harold C. Jones of Centro Right Contracting Services
