RE: Protest of claim A45-10336

Dear Mr. & Mrs. Austin:

I am writing to acknowledge receiving your letter of protest. This right has not yet been recommended to the court for eventual decree, and therefore, is not open for objection. I will include your information with the claim file for consideration at the time the claim is reviewed in preparation for recommendation to the court.

In addition, I have an appointment with one of the Bedkes soon and will make the concern known at that time. This claim could be amended by the claimants in the near future, though I cannot require them to do so. If the claim is not amended and the land is recommended in their claim you may then file an objection. IDWR anticipates filing a report that would include this claim late in the year 2000.

Thank you for your interest in the matter and please contact us if you have other questions.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

The grazing association amended the priority date on the above claims to 4-1-1872.

We discussed the issues concerning claiming stockwater uses as falling into three general categories. 1. In-stream use; 2. A developed spring at the source; and 3. A developed spring/stream with a significant delivery system, primarily a pipeline stocktank system. I indicated that many of their claims may have to be revisited, maybe even additional claims filed.

We reviewed the rights sent to the court and they took objection forms home to complete and send out.

We also discussed the federal filings for stockwater and I showed them the USFS maps that were provided for department review. They indicated that they may wish to object to many of those rights. I suggested that they contact the court to determine the procedure required to file multiple objections. I generated a selection file BEDKE-BLM-CHECK for claims in TNS 15S & 16S; RNG 21E; and parts of 14S. I then deleted F records and decreed rights that appeared to be irrigation rights. I used that selection file to generate a number list for his review. Jeanie Robertson assisted me in this process.
