RE: Snake River Basin Adjudication (SRBA)
Claim No.: 45-10832

Dear David,

As we discussed by phone on Wednesday, I have enclosed five newly created claims for Stockwater that represent various instream reaches originally included within claim 45-10832.

45-13654 only lists West Fork Dry Creek, tributary to Dry Creek Drainage.

45-13655 lists the creeks in the Trapper Creek drainage. Note that I corrected the range listed for the points of diversion and places of use of Fall Creek from 19E to 20E per USGS quadrangle map.

In my recommendation I propose to change the tributaries of several of the creeks, as follows:

- Trapper Creek tributary to Goose Creek (not Oakley Reservoir)
- Water Canyon Creek tributary to Badger Creek
- Badger Gulch Spring tributary to Badger Creek
- Pickett Spring Creek tributary to Dry Fork

Although some of the creeks may, as you claimed, often sink before reaching their listed tributaries, the changes agree with USGS quadrangle maps and identify the drainages.

I also propose to change a fork of Fall Creek claimed as Fall Creek to Unnamed Stream tributary to Fall Creek (see beginning POD SESENW Section 27 and ending POD SWNW Section 21, T15S R20E).

45-13656 includes Trout Creek and the creeks that flow into Trout Creek.

Two new claims to include creeks more correctly identified in Basin 47 are also enclosed.

47-17108 was created for Little Creek, which is tributary to Third Fork Rock Creek, not to Goose Creek as originally claimed on 45-10832.

47-17109 lists an upper reach of Goose Creek and four creeks tributary to the upper reach of Goose Creek. This is considered by IDWR to be part of

basin 47. Note that Goose Creek is tributary to Snake River as corrected on this claim, verified by USGS quadrangle map BB78. After reviewing maps, I also made some minor changes to the points of diversion of the various creeks on this claim.

For your convenience I have enclosed a copy of the original filing for 45-10832. Please compare the five claims with the original and bring any conflicts to my attention. Also let me know if you disagree with any of the changes I have made to the basin 47 claims, or proposed changes in my recommendations. There are no fees for the three split portions of the right remaining in basin 45, nor for the two new claims created in basin 47, although the new claims require a signature.

If you prefer to stop by the office, please let me know, however if it is more convenient, you may sign and return the new claims by mail.

Sincerely,

Vikie Hancock

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.
