Case No. 39576	)	FINDINGS OF FACT AND
	)	CONCLUSIONS OF LAW
	)	
	)	FOR WATER RIGHT 51-12262
	)	

A notice of claim was filed for the above listed water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water resources examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right. This water right was claimed by the United States of America, Bureau of Land Management, based upon state-law, and as a federal reserve water right pursuant to Public Water Reserve 47. On June 10, 2004, the United States and the objector, the State of Idaho, filed a *Standard Form 5* regarding the elements of the state-law based portion of the water right. On December 14, 2004, the parties to the subcase participated in a hearing pursuant to I.C. § 42-1411A(12) regarding the federal reserve basis of the claim. At the hearing, this Special Master considered the *Affidavit of John R. Ash*, filed on February 11, 2004, and the *Affidavit of Fredric W. Price*, filed on December 13, 2004, which demonstrate that the above-captioned water right claim meets the elements of a valid federal reserve water right pursuant to PWR-47.

Therefore based on the file and record herein and pursuant to the information contained in the *Affidavit of John R. Ash*, and upon the comments of counsel at the hearing, IT IS RECOMMENDED that water right 51-12262 be **decreed** with the elements as set forth in the attached ***Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)***.
