Case No. 39576) 45-12640, 45-12644 and 45-12687
) (USDI/BLM)
)
_____) SPECIAL MASTER REPORT

Findings of Fact

On March 2, 1998, the Director of the Idaho Department of Water Resources filed his *Director's Report, Domestic and Stock, Reporting Area 10 (IDWR Basin 45)*. The Director recommended the above five (5) dual-based claims to the United States of America, Department of Interior, Bureau of Land Management, 1387 S. Vinnell Way, Boise, Idaho 83709-1657, for .02 cfs from various springs for year-'round stockwater use in Cassia County with a priority date of January 1, 1873, based on beneficial use. The Director also noted under priority date:

4/17/1926 Claimed under federal reserved water law.

This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Water Reserve 107.

On July 2, 1998, the State of Idaho filed *Objections* alleging the water rights should not exist. On October 15, 2004, the United States and the State, with IDWR's concurrence, filed *Standard Forms 5* in subcases 45-12513, 45-12619, 45-12644 and 45-12687 agreeing to a June 28, 1934 priority date, but preserving the United States' election to proceed on the federal basis of its claims. The same date, the Special Master entered an *Order Dismissing State of Idaho as a Party* in 25 subcases, including 45-12640, based on a *Stipulation* filed by the parties on October 13, 2004.

An I.C. § 42-1411A evidentiary hearing was held by telephone on December 9, 2004. R. Lee Leininger appeared for the United States, along with Frederic W. Price; David J. Barber

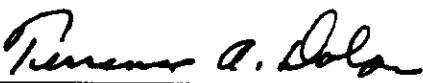

appeared for the State; Travis L. Thompson appeared for Joe Tugaw, *et al.*; and Roxanne Brown represented IDWR.

The United States submitted the *Affidavit of Fredric W. Price*, filed December 6, 2004. Mr. Price, a water rights specialist in the BLM state office, stated that: the federal law basis of the claims is an Executive Order, dated April 17, 1926, and known as Public Water Reserve 107; the claims are located on unreserved federal public domain as of April 17, 1926; the lands currently remain under Department of Interior administration; the claimed water sources were confirmed by field investigation; there is sufficient surface water at the claimed sites for consumptive use by livestock; the sources are springs located at the claimed points of diversion; and the places of use are correctly described in the claims.

Conclusions of Law

The United States is entitled to partial decrees adjudicating federal reserved water rights under claims 45-12513, 45-12619, 45-12640, 45-12644 and 45-12687, all with a priority date of April 17, 1926, as described in the *SF-5's* (except for the priority date) and the attached *Special Master Recommendations for Partial Decrees for Federal Reserved Water Rights 45-12513, 45-12619, 45-12640, 45-12644 and 45-12687*.
