Subject: Pond Near Indian Creek

Dear Mr. Jones:

As a follow-up to your letter to me dated August 30, 2002. I enclose an SRBA beneficial use claim for a pond on my property along Indian Creek near Inkom. The pond has been in place since at least the 1950's, as demonstrated by the attached aerial photos from 1956, 1964, 1978, 1987, and 1998. The pond is also shown on the USGS Inkom 7.5-minute quadrangle map that is based on a 1969 aerial photo with 1971 field check.

The pond covers a total area of approximately 0.3 acres. Maximum depth is approximately 13 feet. The pond is used for irrigation storage purposes during summer months and for year-round aesthetic and recreational purposes. Estimated capacity is 3 acre feet.

Your letter mentioned that the pond seems to have recently been expanded. Actually the pond was not expanded in area, but was simply dredged to remove sediment that had accumulated over the past several years. Due to the high sediment load in Indian Creek and the relatively small capacity of the pond, sediment must be removed on a regular basis.

A \$142 check for the filing fee (\$50 flat fee, \$50 late fee and \$42 cfs fee) is enclosed. Please contact me with any questions regarding the claim.

Also, in the course of reviewing my water rights on the IDWR website I noticed that my irrigation water right (29-604A) has been recommended in the SRBA for 0.246 cfs and 14 acres rather than the claimed amount of 0.42 and 21 acres. Can you send me a copy of the data used to support the recommended reduction of this water right?

Sincerely,

R. Scott Wells
