Should be: None.

11. **I object because:**

- ☒ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

The U.S. Supreme Court addressed in *United States v. New Mexico*, 438 U.S. 696, 98 S.Ct. 3012, 57 L.Ed.2d 1052 (1978), the scope of the federal reserved water right created when the United States withdraws land from the public domain and reserves it for a National Forest. The Court stated:

Each time this Court has applied the 'implied-reservation-of-water doctrine,' it has carefully examined both the asserted water right and the specific purposes for which the land was reserved, and concluded that without the water the purposes of the reservation would be entirely defeated.

438 U.S. at 700; 98 S.Ct. at 3014; 57 L.Ed.2d at 1057 (Footnote omitted). The Court further stated:

The legislative debates surrounding the Organic Administration Act of 1897 and its predecessor bills demonstrate that Congress intended national forests to be reserved for only two purposes—'[t]o conserve the water flows, and to furnish a continuous supply of timber for the people.' . . . National forests were not to be reserved for aesthetic, environmental, recreational, or wildlife-preservation purposes

438 U.S. at 707-708; 98 S.Ct. at 3017-3018; 57 L.Ed.2d at 1061-1062 (Footnote and citations omitted). The use of ground water as described in the notice of claim is not within the scope of the reserved water rights doctrine as applied to lands administered by the U.S. Forest Service.
