Dear Dave;

In response to our conversation regarding Birch Creek.

I managed the LDS church farm (the old Jess Hays dry farm) the summers of 1969, 70 & 71. My family resided on this farm during those summers.

I pumped water from Birch Creek using an electric pump that was established by Mr. Hayes prior to my coming there. The water was used to water the lawn, lilac bushes and shrubbery around the house. I filled the sprayer with water to spray the field. I also watered my hogs with water from Birch Creek.

Regards,

James G. Moncur
