Claim no. A25-13582

Claimant Contact Log

Date	Remarks	Agent initials
11-18-2004		HWJ

I met on-site with Dale Prophet who rents the ground under this claim + Claim A25-14103. Dale has rented thw area for 10 years as he owns adjacent ground. Mr Prophet's phone is 589-0616.

The attached USGS map shows the possible flood irrigated ground. Site #1 is the head of the ditch from Long Valley Creek. See photo's 1 + 2. The possible places of use are hi-lited in yellow.

Site #2 was one of six dam spots on the Long Valley Creek which were used to back up water to irrigate property. At some point a portable pump was used at these sites to irrigate acres in red hi-lite also. (Photos 3 + 4.)

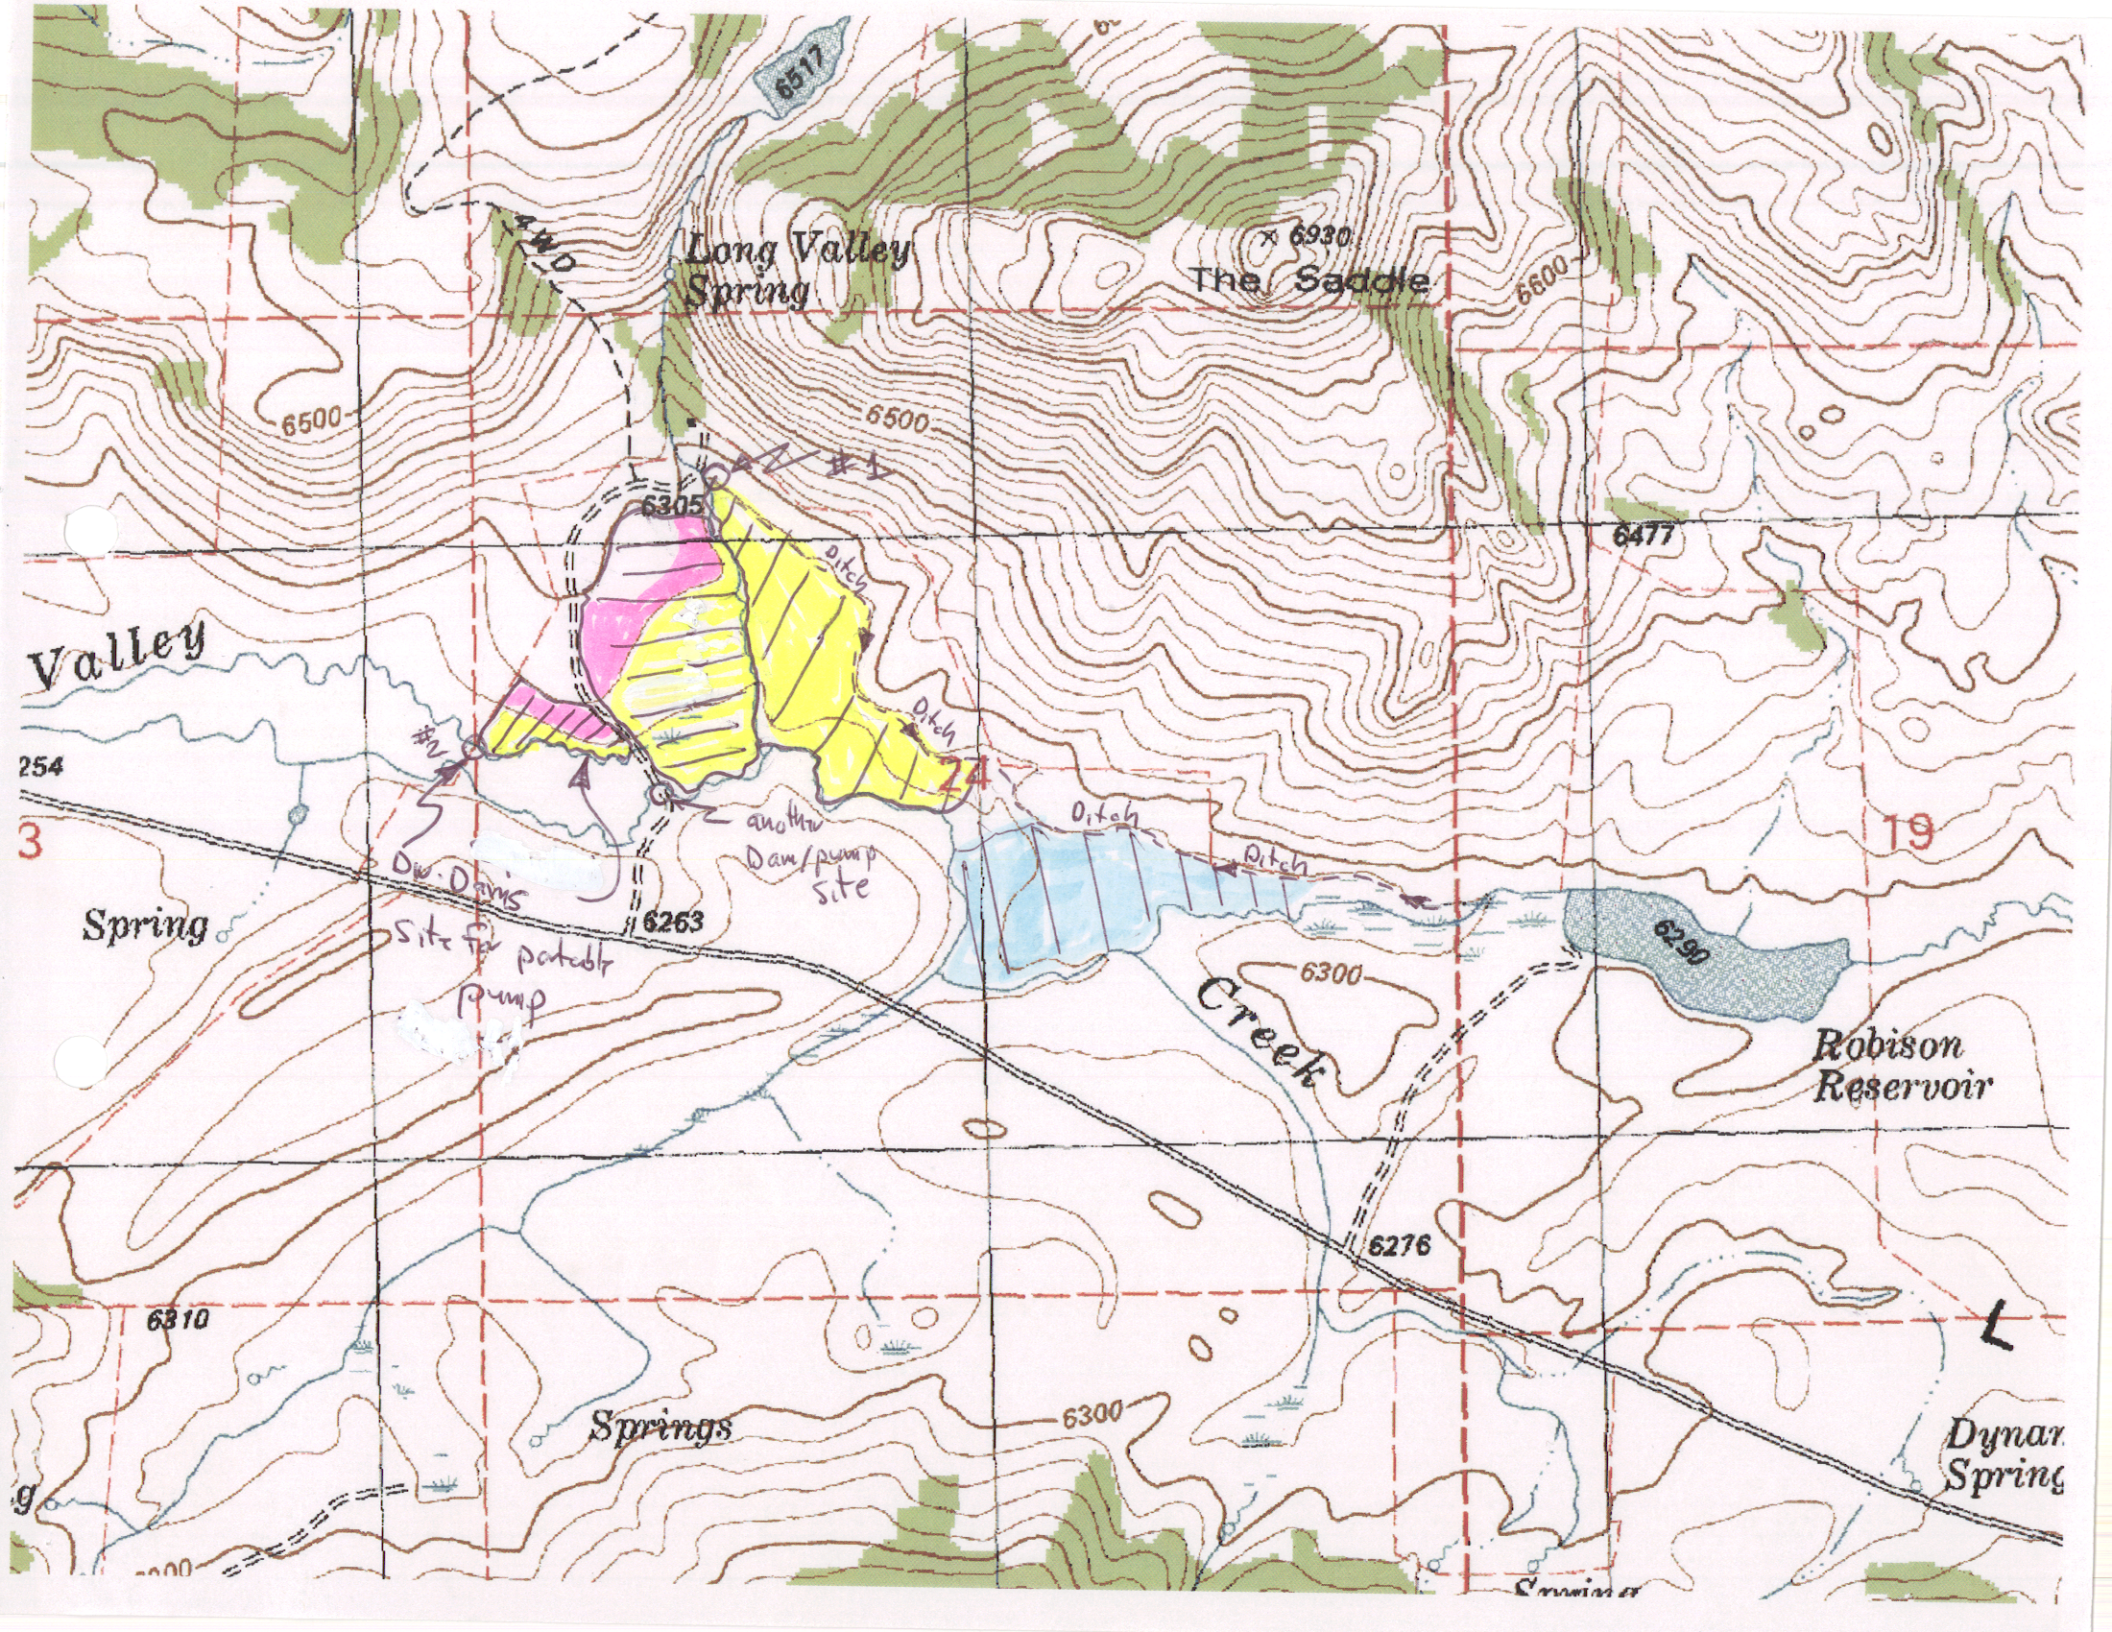

GPS data for the ditch head is; 2685171 GPS File # 25-13582
1339614

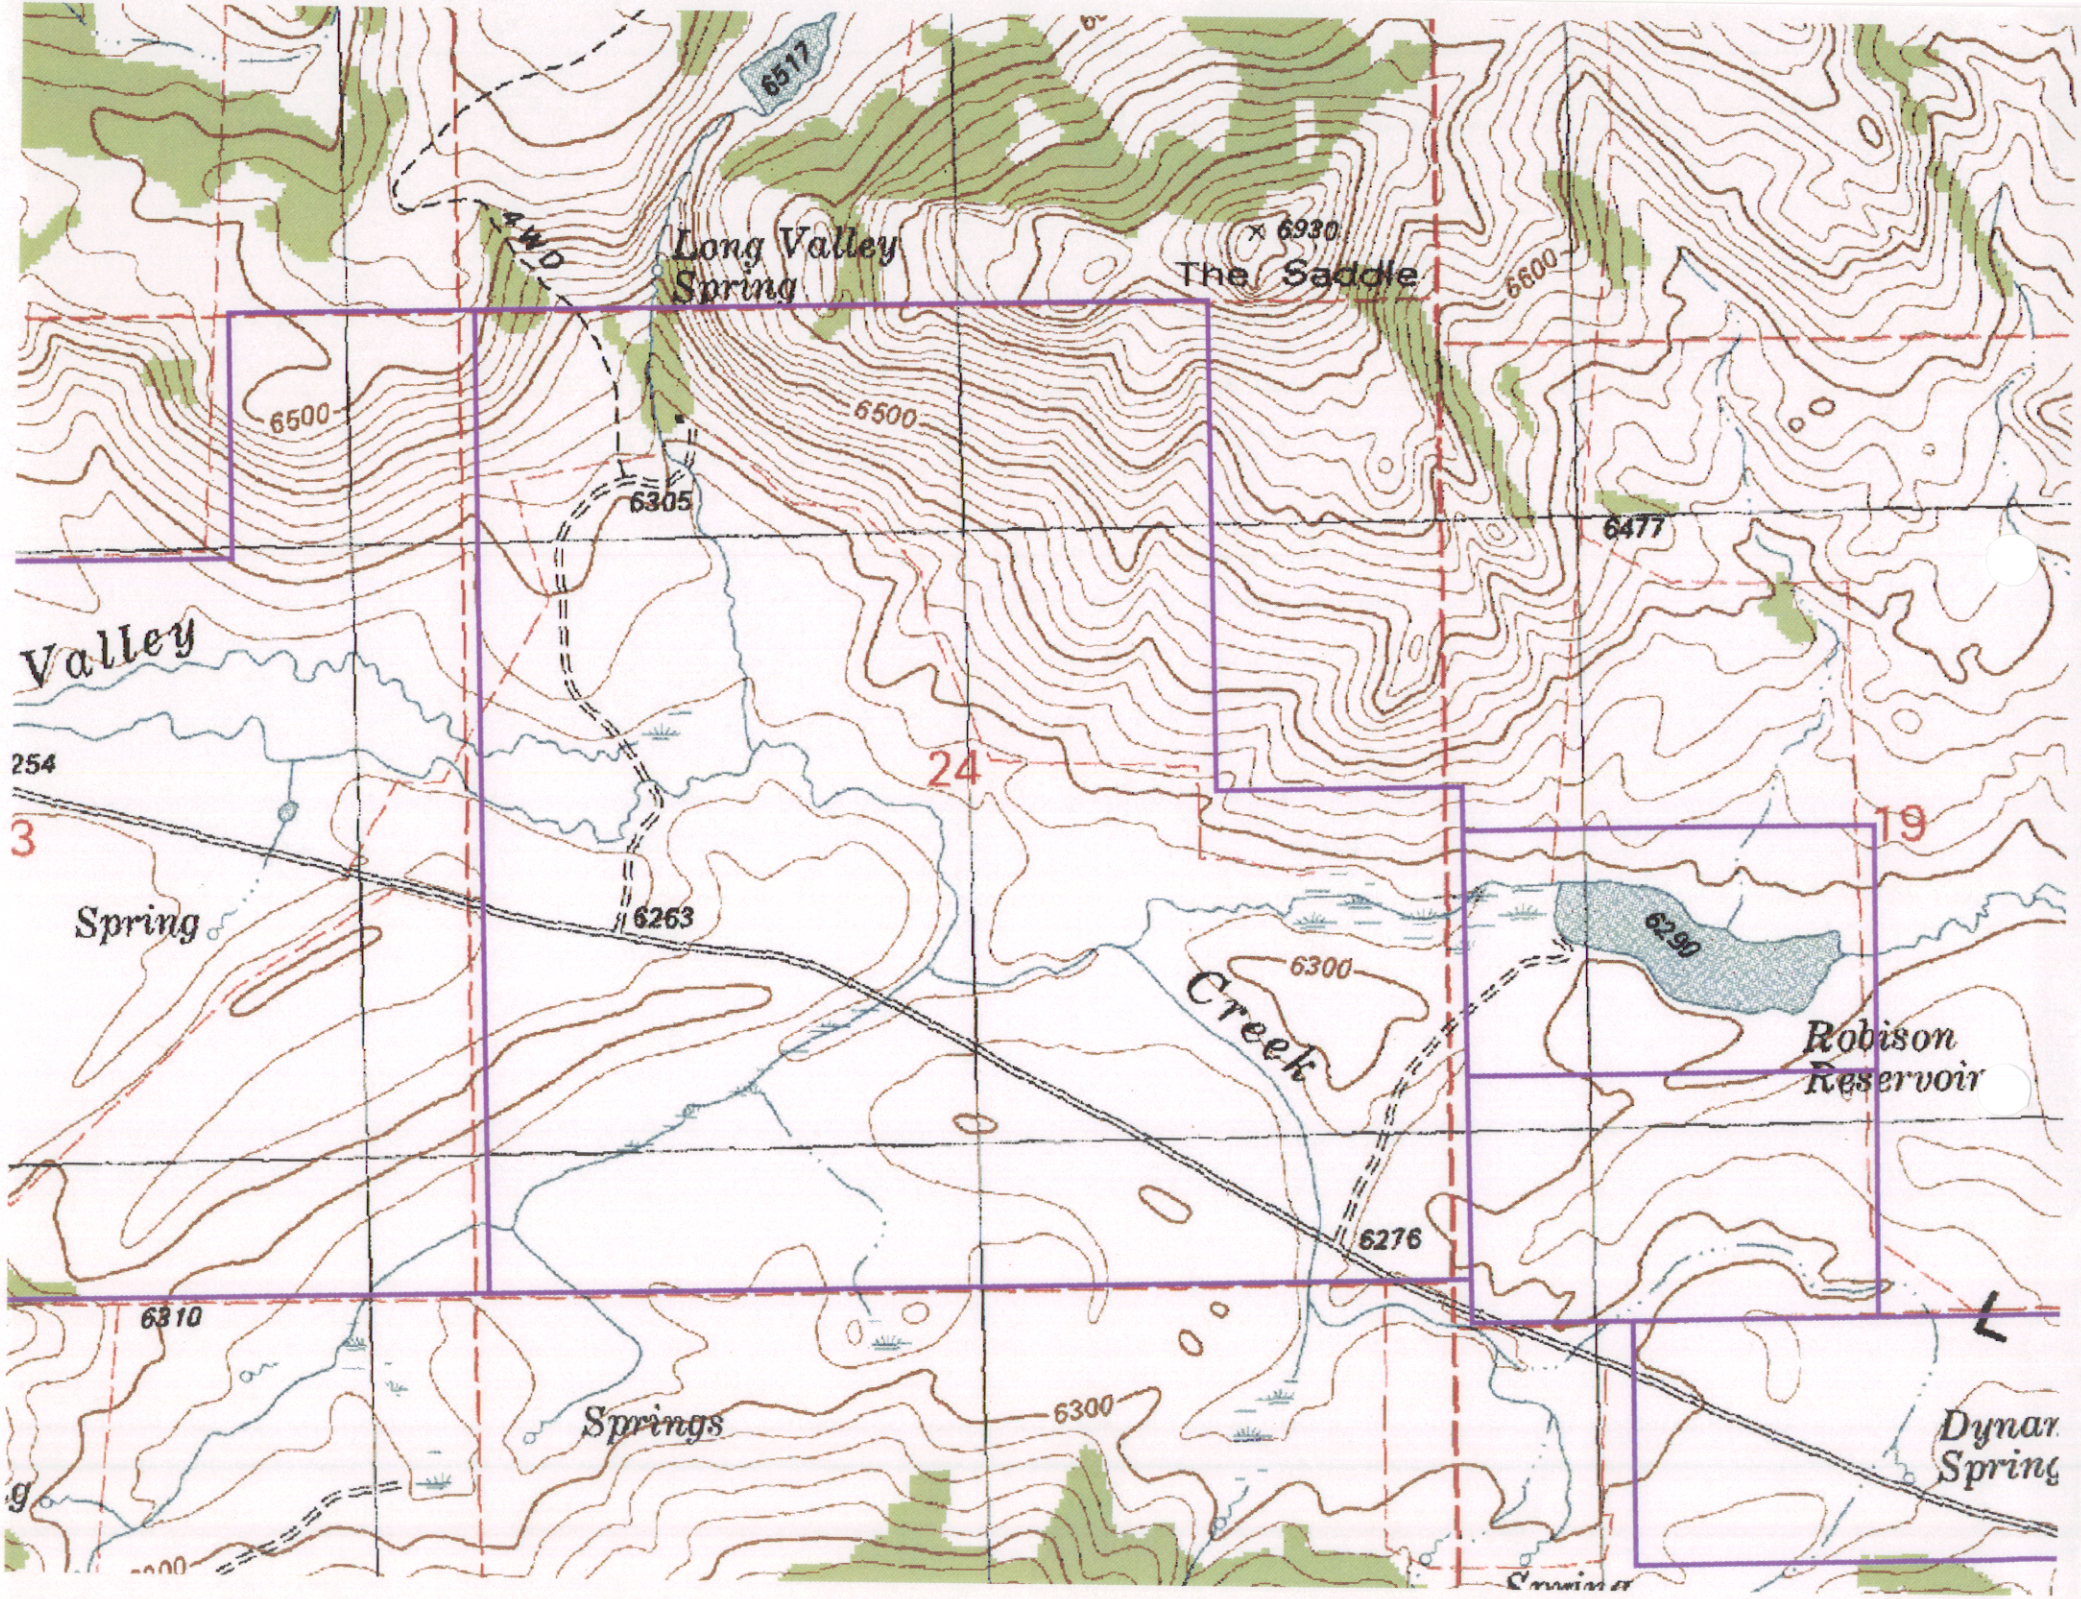

GPS data For Site 2 is; 2684783 GPS file #25-13582-2
1339112

A25-14103

The ditch from Long Valley Creek connects to the ditch from Robison Reservoir + the blue hi-lited area could have been flooded from this ditch.

Exam done by Harold W. Jones of Water Rights Contracting Services.
