RE: Water Right Changes

Dear Mrs. Anderson:

In order to change Water Right License Numbers 21-07351 and 21-07008, you must contact Jim Johnson and explain to him the reasons for requesting the changes. He will advise you of the necessary steps to make sure your water usage is properly registered. His address is:

Idaho Dept. of Water Resources
1301 N. Orchard
Statehouse Mail
Boise, ID 83720
Tel: 334-7900

License No. 21-07351

This water right was issued for 0.04 cfs for 41 trailer spaces and approximately 4.5 acres of lawn. Apparently, the license was issued for an amount less than applied on the permit and less than the amount measured for the well because of the examination fee paid. If a higher examination fee would have been paid, the license probably would have been issued for a higher amount.

License No. 21-07008

When the field exam was completed for License 21-07008, the field examiner only measured one of the three irrigation wells serving the golf course, assuming the other two wells were included previously on License 21-02125. However, only one well was covered by License 21-02125. As a result, License 21-07008 was issued for an amount less than the approved permitted amount, based on the capacity of one well. One of the three existing irrigation wells was never measured. Two wells should probably have been included on 21-07008 resulting in a higher amount, which should reflect the amount being used.

MICROFILMED

OCT 21 1992

The amounts for License Numbers 21-07008 and 21-07351 must be changed, or you will need to submit another permit application to obtain a water right for the additional amount of water you use that is not currently covered by the licenses.

Your water right adjudication claim, based on License 21-07008, reflects the amounts on your originally approved permit application. However, your adjudication claim, based on License 21-07351, reflects the lesser amount that was licensed.

I have enclosed a receipt for the adjudication fee you have paid. If you are successful in getting the water right licenses modified, please send me a note, and I will make sure your adjudication claims are in order.

Sincerely,

Tony Olenichak
Water Right Agent, SR
