Dear Sir:

Re: Water Right in Reporting Area 10, Basin 45
Snake River Basin Adjudication
Right # 45-529B

In regard to your letter of Aug 30, 2004, concerning my water right to irrigate my property which contains 1.90. acres, a change was made from .6 of an acre to .8 of an acre irrigate able. Which as near as I can determine by measuring irrigate able part should be 1.23 acre of land. I feel that this should be changed on your records. I want to be able to irrigate any part of this land that I desire to use. I realize that at this time water is short and not available according to the deeded water right. But should the water become plentiful I want to be able water any portion of my 1.9 acres according to available water.

Please see the enclosed draft of the place.

Yours respectfully,

Coleen Allen
