RE: (1) Water Right Number – 74-00986 – (Change of Address Information)
(2) Water Right Number – 74-1088 – (Property Ownership Redistribution)

Dear Ms. Brown:

First, allow me again to express appreciation both for your expeditious response to my telephone inquiry, and superb direction articulated during our dialogue back on May 20th. I particularly take this opportunity to salute you for your professionalism. Thank you also for forwarding the Idaho Department of Water Resources (IDWR) prescribed documentation materials necessary to update records and ownership status currently on file at your office.

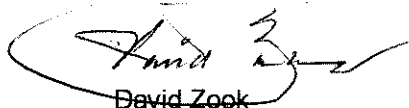

As IDWR records correctly reflect, Dorothy J. Zook, my Mother, legally holds claimant ownership to subject decrees, (i.e., Water Rights No. 74-00986 and No. 74-1088). My Father, who also shared equal claimant rights, is now deceased. His estate, probated under the jurisdictional statutes of the State of Idaho and rights of survivorship, became in its entirety sole property of my Mother's. Additionally, and prior to my Father's death, redistribution of ownership rights for the Mountain Boy Claim Group, intended inclusion of pro-rata conveyance of the decree (i.e., Water Right Number 74-1088) equally among my parents, Penny J. Ogden-Edwards (my Sister) and me. Change of property ownership is duly recorded, and on file as public information (See attached photocopy of deed.), but not filed accordingly with the IDWR.

Enclosed and attached to this cover letter are the following described documents and items both affecting, and effecting changes to, the decreed rights cited above:

- Original signatories of each respective claimant/ owners, including current address and other contact information, for Water Right Number 74-1088, immediately addendum to this letter.
- Change in Address Form for Water Right Number 74-00986, together with photocopy of partial decree pursuant to I.R.C.P. 54(b) issued for subject right.
- Notice of Change in Water Right Ownership with respect to Water Right Number 74-1088, supported by photocopies of both the IDWR Preliminary Recommendation, and Property Deed conveying redistribution of property rights, including the Silver Bell Mining Claim No. 2, the "Point of Diversion" cited in the legal description of the subject decree.
- Personal Check No. 5931 in the amount of \$25.00, the prescribed fee for filing a Notice of Change in Water Right Ownership, described above, when (1) a partial decree exists, and when (2) the Water Right will not be divided as a result of the change in ownership.

Once again, I thank you for your assistance. Please do not hesitate to contact me directly, now or in the future, for assistance with respect to the either above or related matters.

Most sincerely,

David Zook
