From: Craig L. Saxton

Subject: Addition of a pond.

Mr. Holden came into today to inquire about building another pond on his property. I asked Bryce Contor for help in this matter. After researching his water rights, we found that there are several steps that need to take place.

- 1) Water rights 23-10165 and 01-00311 need to have the ownership change to Mr. Holden and his sister. 01-00311 will need to be split to represent each of the claimants respective portions. Mr. Holden was given a change of Ownership application. When he completes it he will bring it back in. OK
- 2) Once the ^{TO} ownership is changed, the ADJ claim for right 23-10165 needs to be amended to list that two ponds exist on the property. Not just one, which is how the claim currently reads. NOT RETURNED
CAN'T DO THIS
EXISTING ONE MUST BE DOCUMENTED TO 1947. THERE IS ONLY 1 POND ACCORDING TO MR. HOLDEN.
- 3) Need to apply for a transfer to convert part of the licensed irrigation acres for right 01-00311 to pond use. - YES - BUT, NOT YET DONE.

4/3/03 Spoke with Mr. Holden - THE ABOVE REFERENCED POND HAS NOT AND WILL NOT BE BUILT. ADVISED THAT AN ADDITIONAL POND WILL REQUIRE AN APPLIC. FOR PERMIT.

ALSO, ASK FOR EVIDENCE OR PRIORITY TO SUPPORT 1947.

MR. HOLDEN WILL CONTACT KURT ROSTON, ATTY. AND WILL GET DOCS. TOGETHER.

WR'S INVOLVED: 23-10165 AND 01-311 (AN EXCHANGE OF STORAGE WATER FROM PALISADES LAKE.)
