I have attached the 18 BLM Beneficial Use claims with priority dates earlier than 1934 I think have not been previously recommended. Through the settlement of other subcases, BLM has agreed the priority date for any Beneficial Use right for BLM should be **June 28, 1934** or later.

Don, There are a number of Basin 29 BLM claims that still need recommendations.
They are still open for modifications.

Hi Ernie,

Have the Recomm for the BLM claims in Basin 29 been put to bed? Based on a question from Dutcher at BLM, I'm pursuing the question of priority dates for these rights? I'm interested in where you are before I proceed on a solution.

Thanks,

Don
