Attachment 1

This Notice of Completed Administrative Proceeding (NCAP) splits the ownership of former licensed water right number 45-2810 between the Bureau of Land Management and the State of Idaho Department of Lands pursuant to a Change of Ownership filed with IDWR on or about September 13, 1993. Although this Change of Ownership was filed prior to the time IDWR filed its Director's Report for Small Domestic and Stock Water Rights in Basin 45, on March 2, 1998, through clerical oversight the changes were not incorporated into IDWR's records, and water right number 45-2810 was recommended for disallowal without the changes made by the Change of Ownership. This NCAP makes the ownership change by splitting the right into water right number 45-2810A, owned by the BLM, and water right number 45-2810B, owned by the State of Idaho Department of Lands. Because questions remain regarding the accuracy of the claimed place of use description, both rights 45-2810A and 45-2810B are still being disallowed.

At the time the original recommendation for water right number 45-2810 was filed with the SRBA Court, it contained an additional clerical error: Mr. Bruce Bedke was incorrectly listed as a co-owner, along with the BLM, of the water right. The water right is a licensed water right with a 1963 priority date. It was licensed by IDWR in the name of the BLM alone. IDWR has no information in its records indicating that at any time the BLM conveyed any portion of the license to Mr. Bedke.

Rather, IDWR's records indicate that Mr. Bruce Bedke has filed with IDWR water right claim number 45-10491. While this claim is to the same water source as the BLM's licensed right number 45-2810, it is a claim for a beneficial use right with an 1872 priority date. It is a claim for a different water right than licensed water right number 45-2810. Mr. Bedke's name as a co-owner of water right number 45-2810 was added erroneously to IDWR's recommendation of that water right. Therefore, this NCAP corrects that clerical error by removing Mr. Bedke's name from the water right as split.

Mr. Bedke's claim for beneficial use water right number 45-10491 was recently recommended by IDWR in the Director's Report for Irrigation and Other Water Rights in Basin 45, which was filed with the SRBA Court on September 7, 2004.
