A22-7292

temporary
This is a duplicate file for a field exam that I did while in the field with Kip of the City of Rexburg. At the time we didn't know the status of the WR so I went ahead & took the GPS reading & photo. Later in the office w/ City engineer John Millar & via internet search it appears that Madison County claim A22-7292 and City of Rexburg Post-AJ license (~~permit~~) 22-7571.

Place of use is Teton Lakes Golf Course, which is also served by A22-203 and A22-204C. The well pumps into a slough about 50 feet from the redistribution pumps. The slough is also supplied by a headgate from the Teton River (back channel) and may receive spring flows (sub).

Please see A22-203 for photo of the redistribution. GPS site tag # A0012225 is well, GPS waypoint 6, 2675611E 1406567N. Redistribution is site tag A0012226, Waypoint 5, 2675620E 1406549N.

Bac

A22-7292 p2

Internet printout for 22-7571 indicates it is post-AJ. WR 22-7292 is pre-AJ but a claim has been filed by Madison County.
