RECEIVED

OCT 18 1988

Department of Water Resources
Eastern District Office

Dear Mr. Alsey:

The Idaho Department of Water Resources (IDWR) is returning your claim to a water right in Madison County, along with your \$25.00 check, because of deficiencies or incompleteness. The IDWR cannot process water right claims unless they are completed correctly and submitted with the appropriate fees.

The claim form previously submitted on August 8, 1988, had the following deficient items:

- Item #2. Priority Date. The date the well was first used for the claimed purpose.
- Item #4. A complete and correct legal land description for the place of use. It appears there is a clerical error on this item, and should list the same Township and Range listed in Item #10.
- Item #9. Number of households served. It appears the number of people served rather than households was entered. Please specify.

It also appears from the information on the form that the use of the well is not for the use of a single household, but for commercial purposes or for use by employees at a business. If this is the case, this use does not qualify for the previously submitted form. A "long" form (enclosed) is required for this type of use.

Please complete the appropriate form. If the use of water is for commercial purposes, the long form must be completed, and the fee is \$50.00 plus \$100.00 dollars per cfs claimed (\$2.00 for 0.02 cfs). If the well wasn't used for the commercial purpose until after March 25, 1963, a permit to appropriate water is required rather than the enclosed adjudication claim form. You may request a permit application from the IDWR if it is needed.

NOV 06 1992

The claim form previously submitted also indicates that the well is leased from the Union Pacific Railroad Company. If you haven't already checked, you may want to contact Jack L. Nelson of the Union Pacific Railroad Company, 1416 Dodge St., Omaha, Neb., (402)-272-3728, to make sure their company is not filing on the same well to avoid duplication.

Please return the necessary completed forms and appropriate filing fees to the IDWR within 30-days of the date of this letter. Failure to submit the appropriate forms and fees within this time period may result in an assessment of a late fee of an additional \$50.00 or forfeiture of your water right. If you have any further questions concerning water rights or completion of the forms, please call the IDWR.

Sincerely,

Tony Olenichak
Water Right Agent, SR
