

Affidavit for Max Palmer

I, Ronnie Fullmer have personally witnessed the usage of waste water from the Blair Canal off of Spring Creek. The waste water comes off of the lands of Muir, Beard and Moulton formerly Widdison.

The water ponds up in Moulton's lands then travels west crossing the county road and on to Palmer's lands.

I have witnessed the usage of this water since the 1950's when the land owner at that time was Sive Fullmer, my uncle. My Father, Don Fullmer and I rented the bottom lands during the 50's and 60's.

In short I have used and witnessed the beneficial use of this waste water on the lands that Max Palmer now owns.

Ronnie Fullmer
