THEN TURN EAST ON TRIPP ROAD, FOLLOW ABOUT 1 $\frac{1}{2}$ mi UNTIL AN OLD SHED WITH A SILVER METAL ROOF IS ON YOUR LEFT. 7/30/02 1800 hrs. Met with Clair Monson, Counselman from City of Arimo. Clair is in charge of the Municipal Water system. We traveled to Chattanooga Springs (AKA Arkansas Springs). Clair explained the system of collection (underground) pipes and showed me the headbox and further commented that when the collection system worked (now) they had water flowing out the overflow. However, about 1 1/2 years back the springs seemed to move down-slope and the collection system no longer works. The City of Arimo is trying to pass a bond to rebuild the city water system and the springs have slid down the priority list.

The City still wants to keep the water right in hopes they can reconstruct the system.

No measurement was taken and the city does not keep flow records.

Recommended as claimed - since there are no other competing claims on the source or the unnamed stream flowing from the site
