OBJECTIONS TO GENERAL PROVISIONS

- I. We object generally to the General Provisions because Groundwater users have groundwater rights which are used as supplemental water sources to surface water rights. The General Provisions do not define or recognize supplemental well use.
- II. We object to General Provision paragraph 4 c. iv, page 11, because the UC Decree provides the water users of the Back Channel pay for the installation and maintenance of diversion works, not the water users of Water District 34.
- III. We object to General Provisions paragraph 5, page 11, because ground water appropriators shall be able to maintain pumping levels that will have rising water rights at the Arco Diversion, or a study conducted using well diggers records to establish a pumping level.
- IV. We object to General Provisions paragraph 6 a, page 11, because this provision does not protect senior surface water rights, and is designed to implement the Director's mitigation plan.
- V. We object to General Provision 8 b., page 12, because the storage under rotation should not accumulate more than fourteen days and then they revert to the Big Lost River Irrigation District. The rotation should be determined by the Big Lost River Irrigation District and not the Director.
- VI. We object to General Provision 8 c., page 13, because the Director should be deleted and the Big Lost Irrigation District substituted. The determination should be made by the District, not the Director.
- VII. We object to the General Provisions because it does not take into consideration or provide for any environmental water rights for wildlife, birds or wetlands.
