Conditions of Approval:

- C18 - THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS
- NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT
- ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY
- DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE
- ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6), IDAHO CODE.

Remarks: QNT USE OF THIS RIGHT WITH RIGHT NO. 31-00063P IS LIMITED TO A
TOTAL COMBINED ANNUAL DIVERSION VOLUME OF 175 AF.

USE THE USE OF WATER FOR IRRIGATION UNDER THIS RIGHT MAY BEGIN AS
EARLY AS APRIL 1 AND MAY CONTINUE TO AS LATE AS OCTOBER 31,
PROVIDED OTHER ELEMENTS OF THE RIGHT ARE NOT EXCEEDED. THE USE
OF WATER BEFORE APRIL 15 AND AFTER OCTOBER 15 UNDER THIS
REMARK IS SUBORDINATE TO ALL WATER RIGHTS HAVING NO SUBORDINATED
EARLY OR LATE IRRIGATION USE AND A PRIORITY DATE EARLIER THAN THE
DATE A PARTIAL DECREE IS ENTERED FOR THIS RIGHT.

POU1 USE OF THE RIGHTS LISTED BELOW IS LIMITED TO
THE IRRIGATION OF A COMBINED TOTAL OF 50 ACRES IN A SINGLE
IRRIGATION SEASON. COMBINED RIGHT NOS.: 31-00062P, 31-00063P.
THIS RIGHT IS LIMITED TO THE IRRIGATION OF 36 ACRES WITHIN
THE PLACE OF USE DESCRIBED ABOVE IN A SINGLE IRRIGATION SEASON.

MEMORANDUM

TO: FILE NOS. 31-00062D & 31-00063D

FROM: PAM SKAGGS/^{CS}STATE OFFICE

SUBJECT: TRANSFER NO. 4780

DATE: May 30, 1996

=====

Transfer No. 4780 was filed to change the point of diversion under a portion of Right Nos. 31-00062D and 31-00063D, splitting each right into parts N and P.

The transfer splits the rights into two separate systems divided by the highway and separately owned. Ownership of the acres under this transfer were confirmed by the Jefferson County Assessor's office.

The season of use and diversion volume were adjusted to current standards. Right No. 31-00063P is limited by diversion volume. The watermaster of Water District No. 31 approved this transfer while acknowledging that this right has not been administered by the watermaster since being transferred to private ownership from Hamer Canal Co.

Recommended conditions include combined limits, watermaster control, irrigation overlap, right-of-way and standard transfer conditions.

Approx. 8 acres in the NE of SE of SE Sec 28 T7 R36.

See enclosed map. Circled in red.

PETE MCGARRY AND VENICE MCGARRY ACTING FOR MCGARRY RANCHES (Herein stated as "land owner"), and BRENT DALLING AND LAUREL DALLING, (Herein stated as "share cropper"), hereby agree to the following terms:

The LAND OWNER agrees to:

- (1) Provide irrigation system of one mainline and three handlines of pipe.
- (2) Pay one third (1/3) of fertilizer, seed and spraying expenses and one third (1/3) of prorated amount of power bill and pump lease. This prorated expense will be computed by dividing eighty (80) acres into one hundred thirty (130) which equals sixty-two percent (62%) by November first to the share cropper or may defer payment until April first with accrued interest at rate of ten percent (10%) to be added to payment due. The land owner may elect to pay his share of the expenses by giving the share cropper hay from his one third crop share which price per ton value will be mutually agreed upon.
- (3) Take one third (1/3) of the hay to be stacked in a predetermined place, and one third (1/3) of the grain and fall feed rent. If ground is rented for potatoes the rent revenue will be split 50/50.
- (4) To give the share cropper the first right of refusal on land owner's share of the hay.

(5) Give the share cropper the first right of refusal to purchase farm if land owner decides to sell property.

(6) To share crop lease eighty (80) acres of ground north of road and homestead herein described as McGarry North Farm for ten (10) years through and including 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004. At the end of ten years, the lease may be continued or land owner may buy share cropper's fifty (50) acres out at a fair market value of like ground in vicinity at a willing sale (willing seller or buyer). In the event of the death of the land owner, the survivors of the land owners will honor this lease to duration. If the land owner elects to not exercise his option to buy out the share cropper, the share cropper may exercise his option to buy out the land owner's eighty (80) acres at a fair market value.

(7) Allow that in the event of the share cropper's death, if the share cropper's survivors wish, they may continue the lease agreement or sublease to another individual, subject to the approval of the land owner, or make available the option to the land owner to exercise the buy out option before expiration of the ten-year lease.

The SHARE CROPPER agrees to:

- (1) Plant eighty (80) acres to alfalfa; provide the labor to irrigate the crop ground.
- (2) Give land owner one third (1/3) of hay crop.
- (3) Cut, bale and stack three (3) cuttings of the hay.
- (4) Pay two thirds (2/3) of the fertilizer, seed and spraying expenses and power bill and pump expenses on a prorated rate.
- (5) Pay one hundred percent (100%) of the seed, fertilizer and spraying expenses and power bill and pump prorated expenses until November first, at which time the land owner will reimburse the share cropper for one third (1/3) of said expenses or the land owner will have the option of paying one third (1/3) of said expenses plus ten percent (10%) interest until April first.
- (6) Provide three (3) handlines of pipe for irrigation of ground.

ANYTHING IN THIS AGREEMENT MAY BE AMENDED BY THE AGREEMENT OF BOTH PARTIES.

Re: Split analysis, competing claims.

These water rights are the splits of the original Hamer Canal Co. rights. They shared a common POU and common POD's. 31-00062 was for 21.2 cfs with priority 10/31/1917. 31-00063 was for 8.8 cfs with priority 5/1/1928. Total is 30.0 cfs. Both are groundwater rights.

Transfer 1584 added points of diversion. Subsequent transfers split off parts of the original right, as individual shareholders began diverting their shares from private wells on their own POU. Some subsequent transfers change POU or POD of these split-off portions. Adjudication claims have been received corresponding to each of these splits by formal transfer.

Following the formal transfers, a portion of the original rights remained unchanged, as recorded in WR record 31-00062Q and 31-00063Q. Competing adjudication claims have been filed on this remaining portion.

This memo outlines the history of splits, and gives some information on competing claims. It relies on the following documentation, which is filed with A31-00062A:

- GIS maps of history of formal transfers. Pages 1 through 10.
- GIS map of competing claims for the remaining portion (WR splits "62Q" and "63Q"). Page 11.
- GIS map showing 1987 irrigation of lands under WR splits "Q." Page 12.
- 1980 NAPP showing 1980 irrigation of lands under competing claims. Pages 13 and 14.
- Close-up from USGS map W41 showing Hamer Canal delivery system, enhanced by GIS. Page 15.
- Memo from president and past presidents of Hamer Canal Company regarding ownership of shares, June 25, 1983. Page 16.
- Affidavit from officials of Hamer Canal Company regarding ownership of shares, 1984. Page 17.

- Stipulation and Agreement of shareholders of Hamer Canal Company, 1980. Page 18.
- Ernie Carlsen memo of conversation w/ Neal Savage, June 1980. Page 19.
- Excerpt from USDA Water Facility Operations Proposal for the Hamer Canal Company, 1941. Pages 20 and 21.
- Second copy of Stipulation and Agreement with cfs notations. Page 22.
- Review of claims and comparison with Stipulation and Agreement. Pages 23 and 24.

The memo also relies on some documentation found in file A31-00062L regarding denied transfer application 2890, and conversations with Harold Jones and Ernie Carlsen. Jones and Carlsen were involved in the original transfers and in the investigation of application 2890.

I. History of Place of Use

While the decreed place of use covered approximately 3140 acres, Mr. Jones and Mr. Carlsen indicate that this was at best a service area rather than an actual place of use. With the severe leakage of the canal and the sandy soils in the area, 30 cfs would have been adequate for only a fraction of the original decreed acres.

GIS map # 12 shows that some of the areas covered by WR splits "Q" were not under irrigation in 1987 and likely had not been for some time. Jones and Carlsen recall that additional GW licenses were developed for other lands under the Hamer Canal. Documentation in 31-00062L shows this for the Wade Yearsley places of use, and the WR and AJ databases bear this out for lands in section 23. Other places of use were not investigated.

It appears that all of the competing claims "L," "K," "Q," and "S" all were under irrigation in 1980 and 1987. "L," however, is in a location that could not physically have been served by the Hamer Canal but would have to represent an accomplished transfer. This claim in fact is based upon the denied transfer application 2890. Jones and Carlsen indicate that they found no evidence that no original Hamer Canal lands were dried up to accommodate the transfer. Conversation memos in A31-00062L indicate that the claimant acknowledges that all the original Hamer Canal lands were still being irrigated.

Claims "K," "Q," and "S" are in locations where irrigation from the Hamer Canal would have been physically possible.

II. Overlapping Water Rights on Competing Claims

Claims "L" are overlapped by license 31-02337 and claim A31-02337. The license authorizes 1.68 cfs on 84 acres (0.02 cfs/acre). The AJ claim is for 112 acres, which is substantiated by GIS analysis.

The claimant appears to have an ownership claim on the unallocated Hamer Canal rights (see "ownership" below). Because no Hamer Canal lands have been dewatered, the Hamer Canal rights will have to overlap the licensed right, rather than cover the enlargement acres. The license is already for 0.02 cfs/acre, but since the lands are surface irrigated, a Hubble analysis might justify additional diversion rate on the licensed 84 acres. However, this becomes problematic in light of the enlargement; how do we justify a need for additional diversion rate, and at the same time justify additional acres without additional diversion rate? (Note that NWMD measured over 6.0 cfs; the license is for 1.68.)

Claimant has been requested to provide additional documentation of the history of the use of the claimed right. Further analysis and investigation will be filed in A31-00062L. At first blush it appears that even though claimant may have title to the right, there has not been a valid accomplished transfer or enlargement of the original Hamer Canal rights. Upon receipt of documentation I will continue review.

Claims "Q" are not overlapped by any WR or claim. I've requested documentation of use and ownership from claimant. Upon receipt, I will begin CVR investigation.

Claims "S" are overlapped by beneficial use claim A31-10503 and license-based claim A31-07203. These overlaps have not been investigated. Ownership review below indicates the claimant does have an interest in the Hamer Canal rights. I have also requested documentation and will proceed with CVR review upon receipt.

III. Ownership

Documentation of ownership is incomplete and contradictory:

1. Memo from past presidents of Hamer Canal Co. (1983, p. 16) indicates that "existing water rights in the Upper Hamer Canal Company, now belong to Dave Murdock and Loren McGarry." This is contradicted, however, by Rene Shurtliff's ownership documentation in transfer 4911 (1997). It is unclear if there may also be others with legitimate claims to the water apparently granted to Murdock by this memo. Specifically, it is unclear who now has title to the shares of Shirley and Lounsbury (see items 3, 4, and 5).
2. Affidavit of officials of Hamer Canal Co. (1984, p. 17) indicate that Dave Murdock "has purchased water rights in excess of the amount he is still using" and that he specifically had purchased the rights to 212 acres in sections 22

and 28. Wade Yearsley, owner of the lands, provided an affidavit that the Hamer Canal Water had been used on those lands but no longer is, and that he had no claim on the Hamer Canal shares. However, documentation in A31-00062L shows that those places of use continued to be irrigated under other rights and claims.

3. Stipulation and Agreement (1980, p18) accounts for 18.1 cfs of the 30.0 decreed cfs. The Neal Savage conversation memo (1980, p. 19) indicates that all the shareholders signed the Stipulation and Agreement. However, the list itself appears to only be a list of shares proposed to be transferred out of the company. No number of shares is listed for signers Ralph Lounsbury, Loren McGarry, or Dan Murdock. Further, "zero" shares are listed for Rene Shurtliff.
4. Water Facilities Operation Proposal (Pages 20 and 21) indicates that in 1941 there were 322 shares of stock outstanding. The stipulation asserts 5 miners inches per share. $30 \text{ CFS} \times 50 \text{ inches/cfs} \times 1 \text{ share/5 inches}$ indicates 300 shares outstanding.
5. The copy of the Stipulation and Agreement with cfs notations (Page 22) accounts for all of the stipulated shares except Lynn Shirley's.
6. Review of Claims (Pages 23 and 24) identifies claims associated with McGarry ("A"), Murdock's original shares ("K"), and Shurtliff ("J").

Murdock's "L" claim, and Dalling's "Q" claim, are not linked back to any signers of the Stipulation and Agreement or any of the stipulated shares.

The review accounts for all the stipulated shares except Shirley's and all the signers except Lounsbury and Shirley.

IV. Diversion Rate

The decreed diversion rate was 30.0 cfs. However, the Water Facilities Operation Proposal (Pages 20 and 21) indicates that in 1941, the canal was "assessing 322 shares of stock... and delivering approximately two miner's inches of water per share." This is only about 13 cfs. However, it is likely that part of the proposal, and part of transfer 1584, were efforts to recover diversion capacity lost to declining pumping water levels.

The formal transfers were all processed under the assumption that the original diversion rate was valid and I plan to do the same with AJ claims, as ownership and historical use documentation allows.

To: Splits of A31-00062
Fr: Bryce A. Contor
Date: 2/17/2000

Re: Split History

Attached are split histories for the WR side and AJ side. Primary documentation is in A31-00062A. Additional documentation is in A31-00063A, A31-00062J, and A31-00062H.

Claim A31-00062H, corresponding to WR 31-00062H, needs to be split per T4923. Transfer split WR into portions "S" and "T," but claim "S" has already been used to represent a part of original WR 31-00062Q.

Four claims -- A31-00062K, A31-00062L, A31-00062Q, and A31-00062S -- appear to have their basis in WR 31-00062Q. These will need careful research of ownership history, original POU, and accomplished transfer. Memo in splits of '63 indicates that 31-00062Q is underclaimed, but this is incorrect. Both 31-00062Q and 31-00063Q are overclaimed.

Note that Hamer Elementary School has an irrigation well that may also reflect part of the original Hamer Canal Co. right. See file A31-10292.

Conditions of Approval:

- R04 - Use of water under this water right will be regulated by the watermaster of State Water District No. 31.
- R30 - This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for irrigation of the lands above.
- T04 - Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
- T07 - The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
- T08 - Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
- T09 - Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Remarks: GEN Right Nos. 31-00062P and 31-00063P when combined shall not exceed a total combined annual diversion volume of 175.0 af, nor the total combined irrigation of 50.0 acres in a single season.

RE: CHANGE IN OWNERSHIP FOR A31-00062 (D) AND A31-00063 (D)

Dear Mr. Dalling:

The request for Change in Ownership for a portion of the above referenced Notice(s) of Claim has been processed with new Notice(s) being generated to reflect you as one of the claimants.

Since the Change in Ownership involved just a portion of the Notice(s) of Claim, the right was split as follows:

A31-00062P, BRENT DALLING, 0.71CFS; 50 ACRES
A31-00062N, AARON SAVAGE, 2.12CFS; 150 ACRES

A31-00063P, BRENT DALLING, 0.29CFS; 50 ACRES
A31-00063N, AARON SAVAGE, 0.88CFS; 150 ACRES

Enclosed for your records is a typed Notice(s) reflecting your portion of the right. Review the Notice(s) and if there are other corrections or questions, feel free to contact this office.

Respectfully submitted,

Jo Thompson
Adjudications Secretary
