IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 31-135

NAME AND ADDRESS: MUD LAKE WATER USERS INC
1400 E 1500 N
PO BOX 68
TERRETON, ID 83450

SOURCE: MUD LAKE TRIBUTARY: SINKS

615 AFY

FOR THIS RIGHT, THE DIVERSION VOLUME DESCRIBED ABOVE WAS
CALCULATED BY MULTIPLYING A DIVERSION RATE OF $\frac{1}{2}$ CFS BY A
FACTOR OF 2 ACRE FEET PER DAY FOR 123 DAYS (MAY 1ST TO
SEPTEMBER 1ST).

2.5 Bac

PRIORITY DATE: 06/10/1912

POINT OF DIVERSION: T06N R35E S3 LOT 4 NENWNW Within JEFFERSON County
T06N R35E S4 LOT 4 NENWNW Within JEFFERSON County

PURPOSE AND
PERIOD OF USE:

PURPOSE OF USE	PERIOD OF USE	QUANTITY
IRRIGATION STORAGE	01-01 12-31	615.00 AFY
IRRIGATION FROM STORAGE	04-01 10-31	615.00 AFY

PLACE OF USE:

USE OF THE RIGHTS LISTED BELOW IS LIMITED TO THE IRRIGATION
OF A COMBINED TOTAL OF 24261.3 ACRES IN A SINGLE IRRIGATION
SEASON. COMBINED RIGHT NOS.: 31-327, 31-328, 31-329, 31-330,
31-331, 31-332, 31-336B, 31-337B, 31-371, 31-2239, 31-2265,
31-2289, 31-2290, 31-2297, 31-2310, 31-2317A, 31-2317B, 31-
2321, 31-2341, 31-2342, 31-2343, 31-2344, 31-2345, 31-7005,
31-11430, 31-11432, (GROUNDWATER), 31-2276, (WASTEWATER), 31-
6, 31-34, 31-35, 31-36, 31-37, 31-38, 31-52, 31-65, 31-104,
31-105, 31-147A, 31-159, 31-162, 31-163, 31-166, 31-168, 31-
169, 31-184, 31-185, 31-186, 31-187, 31-188, 31-232, 31-237,
31-263, 31-363, (OWLSEY DIVISION SURFACE WATER), 31-134, 31-
135, 31-143, 31-144, 31-190, 31-192, (JACKETT DIVISION SURFACE
WATER), 31-344, 31-345, 31-354, 31-355, 31-360, 31-361, 31-
10957, 31-10958, 31-10959, 31-10960, 31-10961, 31-10962, 31-
11437 (HOLLEY DIVISION SURFACE WATER).

PLACE OF USE WITHIN THE BOUNDARY OF THE JACKETT DIVISION OF
MUD LAKE WATER USERS, INC. TOTAL IRRIGATED ACRES 3107.3.

THIS RIGHT IS LIMITED TO THE IRRIGATION OF 320 ACRES WITHIN
THE PLACE OF USE DESCRIBED ABOVE IN A SINGLE IRRIGATION
SEASON.

USE OF THE RIGHTS LISTED BELOW IS LIMITED TO THE IRRIGATION
OF A COMBINED TOTAL OF 3107.3 ACRES IN A SINGLE IRRIGATION
SEASON. COMBINED RIGHT NOS.: 31-134, 31-135, 31-143, 31-144,
31-190, 31-192.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS
NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE
EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE
ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER
THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6),
IDAHO CODE.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

RIGHT INCLUDES ACCOMPLISHED CHANGE IN PLACE OF USE PURSUANT
TO SECTION 42-1425, IDAHO CODE.

1. Name of Claimant (s) Jackett Canal Company Phone (208) 523-0620
Mailing Address % Holden, Kidwell, Hahn & Crapo
P.O. Box 50130, Idaho Falls, Idaho Zip 83405
2. Date of Priority (Only one (1) per claim) June 10, 1912
3. Source of water supply (a) Camas Creek
which is tributary to (b) Mud Lake
4. a. Location of existing point of diversion is: Township 6N Range 35E Section 3,
1/4 of 1/4 of 1/4, Govt. Lot, 4 B.M., County of Jefferson
Additional points of diversion if any: SW1/4SW1/4 Sec. 33, T7N, R35E
b. If instream flow, beginning point of claimed instream flow is:
Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____,
Govt. Lot _____ B.M., County of _____
ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____
_____ 1/4, Govt. Lot _____ B.M., County of _____
5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well. 5 pumps are located on Camas Creek in Lot 4
of Sec. 3, T6N, R35E.; 3 pumps are located on Camas Creek in the SW1/4SW1/4 of Sec. 33,
T7N, R35E. These pumps divert water under rights in Camas Creek as well as rediverting
water brought to Camas Creek through the Independent Ditch from the company's wells. The
pumps divert up to about 75 cfs from Camas Creek under a combination of the Camas Creek
rights and the well rights which are used to supplement flows in Camas Creek. There are
seven wells with pumps that pump into ditches which bring the water to Camas Creek for
rediversion. See Transfer No. 2303.

STORAGE RIGHTS

IN

MUD LAKE

Under the federal court decree in the case of Ernest Sauve v. W. H. Abbott, et al., Case No. 635, entered November 1, 1930, the watermaster is charged with the responsibility of accounting for water stored in Mud Lake during the nonirrigation season on the basis of priorities to the use of the waters of Mud Lake and its tributaries during the irrigation season.

As a result of the drilling of wells which for many years resulted in the flow of significant amounts of water therefrom without the necessity of pumping, other court decrees have resulted which also impact such storage rights. Notable among such decrees is the one entered by the District Court of the Ninth Judicial District for Jefferson County in the case of Owsley Canal Company v. Ernest Bauerle, et al., Case No. 1739, on October 14, 1940.

By the early 1960's, most of such flowing wells had ceased to flow in average water years, either during the irrigation or nonirrigation season. Pumps were installed and in very recent years some wells have been deepened in order to provide the

MICROFILMED

DEC 09 1992

NOV 15 1992

required amounts of water. Coincidentally with the increased number of groundwater diversions in the areas surrounding Mud Lake, wintertime flows from Camas Creek and the other tributaries have, in many of the past twenty to twenty-five years, been insufficient to fill Mud Lake.

In response to the need to fill Mud Lake during the nonirrigation season, for the benefit of all holders of natural flow and storage rights therein; a practice has developed of pre-irrigation season pumping from many of the same wells which are the subject of the Owsley v. Bauerle decree, as well as some other wells. The pre-season pumping has been done pursuant to an agreement entered into by all those who hold rights to the use of the waters of Mud Lake. A copy of the agreement currently in effect is attached hereto.

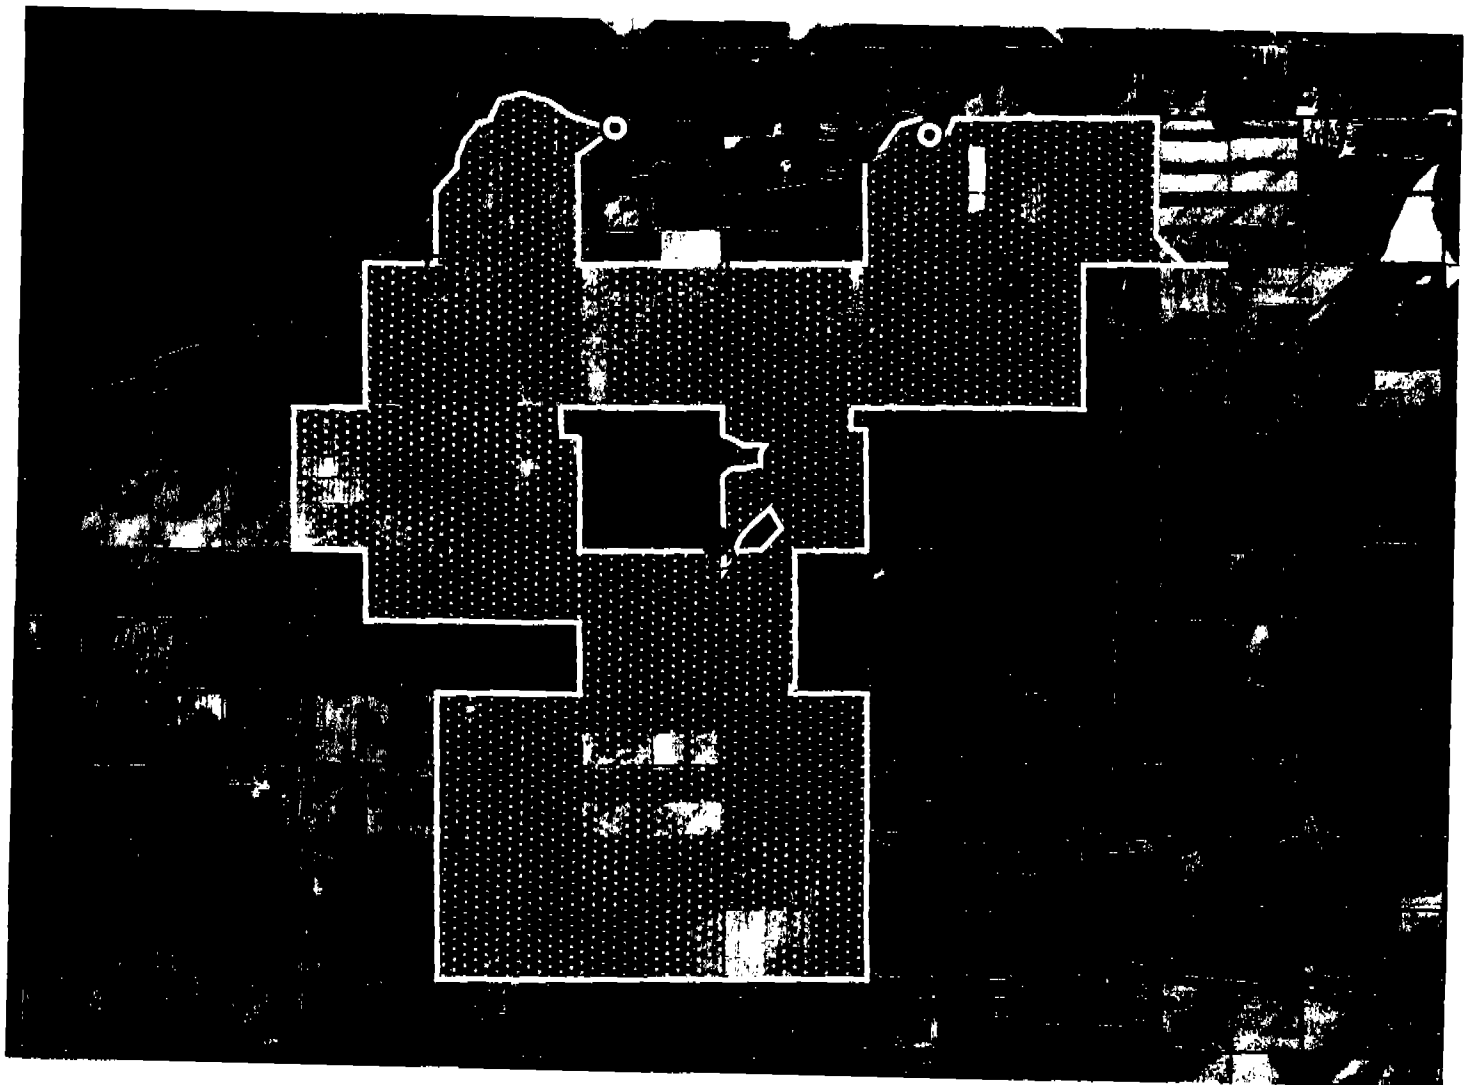

Claimant has made a claim for storage rights under each of its natural flow rights. The storage capacity of Mud Lake is only 45,000 acre feet, which is far less than the combined total of the potential storage rights of all holders of such rights. In addition to the limitations imposed upon such claimed storage rights by nature, by the size of the storage facility, by the applicable decrees of courts and the priorities provided therein, such storage rights have been and are presently subject to the practice described in the attached current pre-season pumping agreement.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
	A31-00134*			A31-00192*	
	A31-00135*			A31-2289	
	A31-00143*			AP-2290	
	A31-00144*			AP-2291	
	A31-00190*			AP-2292	
				A31-2517*	

2. The following **REQUIRED** information must be submitted with this form:

Merge Agreement

~~A. The appropriate FILING FEE. See instructions for fee amounts.~~

B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION.**

C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

A. DESCRIPTION OF RIGHT AS RECORDED - See Attached Information

1. Right evidenced by:
 - a. Decree to _____ (Name)
in case of _____ vs _____
dated _____ in _____ county of _____ (Name of court)
 - b. License No. _____ issued by the Idaho Department of Water Resources
 - c. Claim No. _____ on file with the Idaho Department of Water Resources
2. If applicant is not the original holder of this right, explain how it was acquired and attach a copy of the deed or other evidence of ownership of the land to which the right is appurtenant _____

3. Source of water _____ tributary to _____
4. Date of priority _____
5. Water is used for the following purposes:
 amount _____ for _____ purposes from _____ to _____
 amount _____ for _____ purposes from _____ to _____
 amount _____ for _____ purposes from _____ to _____
 (month/day - both dates inclusive)
6. Total amount of water under right:
 - a. _____ cubic feet per second
 - &/or
 - b. _____ acre feet per annum
7. Location of original point of diversion is _____ 1/4 of _____ 1/4 of Section _____
 Township _____ Range _____, B.M., in _____ County
 Additional points of diversion, if any _____

8. Lands irrigated or place of use:

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

31-0134

31-0143 31-0135

31-0144 31-0337

This is to certify that I have examined Application for Transfer of Water Rights No. 31-0190 31-2289,

and said application is hereby approved.

31-0336 31-2290

31-2297 31-2310

31-2317 31-2321

1. Approval of said application is subject to the following limitations and conditions:

(1) Any future transfer of any of these rights will cause the remaining rights to revert back to the original acreage. (2) The intent of this transfer is to record water delivery practices that have existed since 1956 - no change in delivery patterns is authorized. (3) Diversion of water authorized by this transfer shall not exceed 9321 acre feet per annum. (4) Measuring devices and controlling works of a type approved by this Department must be permanently installed and maintained at the points of diversion from groundwater. The existing measuring methodology shall be maintained at the points of diversion/re-diversion from Camas Creek. (5) Use of water under this transfer is subject to control by the watermaster of Water District No. 31, Mud Lake and tributaries.

Witness my hand this 23rd day of June, 1981.

Norma C. Young
Administrator, Resources Admin. Div.

A. DESCRIPTION OF RIGHTS AS RECORDED:

Department of Water Resources
Eastern District Office

1. Rights evidenced by:

a. Decreed Rights:

- (1) Ernest Sauve, Plaintiff, vs. W. H. Abbott, et al, Defendants;
dated November 1, 1930; in the District Court of the United States for the District of Idaho, Eastern Division. Proceedings were held in Pocatello, Bannock County, Idaho, but the decree purports to allocate the waters of Mud Lake in Jefferson County, Idaho, and its tributaries. All lands irrigated through applicant's system are in Jefferson County. These rights were conveyed to applicant by an instrument entitled "Water Deed", dated May 1, 1956, recorded as Instrument No. 116320 in the records of Jefferson County, Idaho, on September 15, 1958; also in Book 55 of Water Deeds at page 309. A copy of this deed is attached hereto. The information for each such water right is listed as follows:

- | | | |
|-----|----------------------|--|
| (a) | Right No. - | 31-0134 (Page 47 of Decree, No. 70) |
| | Decreed to- | Los Angeles First National Bank and Trust Company (formerly First Nat'l Bank of Los Angeles), a corporation. |
| | Source - | Camas Creek, a tributary of Mud Lake. |
| | Priority Date - | March 20, 1911. |
| | Water Used For - | Irrigation |
| | Amount - | 3.5 cfs |
| | Point of Diversion- | In Lot 4, Section 4, Township 6 North, Range 35 East, B.M. |
| | Place of Use - | 7.38 acres in Lot 7, Section 32, Township 7 North, Range 35 East, B.M. 41. acres in Lot 4, Section 4; 41. acres in Lot 1, Section 4; 52.25 acres in Lot 2, Section 5; all in Township 6 North, Range 35 East, B.M. |
| (b) | Right No. - | 31-0135 (Page 47 of Decree, No. 70) |
| | Decreed to - | Los Angeles First Nat'l Bank and Trust Company (formerly First Nat'l Bank of Los Angeles), a corporation. |
| | Source - | Mud Lake |
| | Priority Date - | June 10, 1912 |
| | Water Used For - | Irrigation |
| | Amount - | 2.5 cfs |
| | Point of Diversion - | Near the Center of the Southwest Quarter of Section 5, Township 6 North, Range 35 East, B.M. |

RECORDED

NOV 25 2001

- Place of Use - 320 acres as follows: 40 acres in the Northwest Quarter of the Northwest Quarter; 40 acres in the Northeast Quarter of the Northwest Quarter; 40 acres in the Southwest Quarter of the Northwest Quarter; 40 acres in the Southeast Quarter of the Northwest Quarter; 40 acres in the Northwest Quarter of the Northeast Quarter; 40 acres in the Southwest Quarter of the Northeast Quarter; 40 acres in the Northwest Quarter of the Southeast Quarter; 40 acres in the Northeast Quarter of the Southwest Quarter - all in Section 8, Township 6 North, Range 35 East B.M.
- (c) Right No. - 31-0143 (Page 49 of Decree, No. 75)
 Decreed to - Clarence O. McGill and G. B. Adams.
 Source - Camas Creek, a tributary of Mud Lake.
 Priority Date - March 29, 1911
 Water Used For - Irrigation
 Amount - 1.0 cfs
 Point of Diversion - In Lot 4, Section 3, Township 6 North, Range 35 East B.M.
 Place of Use - Lots 3rd and 4th the Southwest Quarter of the Northwest Quarter; the Southwest Quarter of the Southwest Quarter, the Northeast Quarter of the Southwest Quarter, and the Northwest Quarter of the Southwest Quarter, all in Section 3, Township 6 North, Range 35 East, B.M.
- (d) Right No. - 31-0144 (Page 49 of Decree, No. 75)
 Decreed to - Clarence O. McGill and G.B. Adams
 Source - Camas Creek, a tributary of Mud Lake
 Priority Date - September 21, 1912.
 Water Used For - Irrigation
 Amount - 1.0 cfs
 Point of Diversion - Same as 31-0143.
 Place of Use - Same as 31-0143.
- (e) Right No. - 31-0190 (Page 60 of Decree, No. 99)
 Decreed to - Merritt M. Owsley
 Source - Camas Creek, a tributary of Mud Lake.
 Priority Date - October 14, 1913.
 Water Used For - Irrigation
 Amount - 5.9 cfs
 Point of Diversion - A point South 73.75° East 1222 feet from the Northwest Corner of Section 3, Township 6 North, Range 35 East, B.M.
 Place of Use - The Southwest Quarter, the West Half of the Southeast Quarter, and the West Half of the Northeast Quarter, of Section 9, Township 6 North, Range 35 East, B.M.

RECORDED

NOV 23 1911

(2) The Owsley Canal Company, Plaintiff, vs. Ernest Bauerle, et al, Defendants; dated October 14, 1940; in the District Court of the Ninth Judicial District of the State of Idaho, In and For Jefferson County. These rights were conveyed to applicant by instrument entitled "Water Deed", dated December 20, 1956, recorded as Instrument No. 120684, in the records of Jefferson County, Idaho on December 11, 1959; also in Book 81 of Water Deeds, at Page 56. A copy of this deed is attached. By this deed, Independent Water Users of Mud Lake, Inc., conveyed to applicant:

"An undivided one-third (1/3) in and to all of the water and water rights and diversion works of every kind, nature and description owned by said First Party, or in which First Party has any interest and particularly, but not limited thereto, an undivided one-third (1/3) interest in and to the water rights evidenced by Idaho Water License No. 17690 and Idaho Water Permit No. 17763."

The Bauerle Decree recites that Independent Water Users of Mud Lake, Inc., is the owner of this license and permit and appears to confirm or decree the rights represented in both the license and the permit. Subsequently the Permit, No. 17763/31-2254 was canceled for failure to submit proof of beneficial use. However, water has been diverted and applied to beneficial use each year in reliance on this right and the applicant has always relied on the decree as evidence of the rights, rather than the license or permit. We are attaching a copy of a letter from Mr. Bobby D. Fleenor of the Department to Don Shenton, dated June 4, 1974, explaining that the permit was canceled because after the entry of the Decree there was no longer any need to prove up on the permit, and the filing was unnecessary. The rights under this decree are described as follows:

(a) Right No. - 31-0336 (License No. 17690/31-2253)
 Decreed to - Independent Water Users of Mud Lake, Inc.
 Source - Ground Water
 Priority Date - April 27, 1932
 Water Used For - Irrigation
 Amount - Decree says 32.50 cubic feet per second, but combined with Right No. 31-0337 "an amount not exceeding in the aggregate the equivalent of 91.8 cubic feet per second, flowing continuously during the irrigation season from May 1 to November 1 of each year."
 Point of Diversion - Northeast Quarter Northwest Quarter Section 3, Township 6 North, Range 35 E.B.M., Jefferson County.
 Place of Use -

 Point of Diversion - Northwest Quarter Northeast Quarter Section 27, Township 7 North Range 35 E.B.M.
 Place of Use - 36 acres in Northeast Quarter Southwest Quarter, 34 acres in Northeast Quarter Southeast Quarter, 26 acres in Northwest Quarter Southeast Quarter all in Section 8, Township 6 North, Range 35 E.B.M.

RECORDED

NOV 25 1953

All of the above described Licensed Rights were deeded to the Jackett Canal Company shortly after its organization in 1956. copies of all of the deeds are attached.

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE:

1. Change in point of diversion:

a. Amount of water to be diverted - the combination of all of the above described rights of the Jackett Canal Company amounts to 75 cubic feet per second. The decreed rights from Camas Creek are pumped out of Camas Creek at the points of diversion described below, so long as water is available to fill these rights. The seven wells maintained by the company are used only to the extent necessary to supplement the creek rights. Usually, this requires an increased use of the wells as the season progresses. Although the wells are usually operated to some extent from the time the irrigation season begins, in a sense, the wells are used as supplemental to the decreed rights from the creek.

b. Points of diversion -

- (1) Southwest Quarter Southwest Quarter, Section 13,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (2) Northwest Quarter Southeast Quarter, Section 22,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (3) Northwest Quarter Southwest Quarter, Section 23,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (4) Southwest Quarter Southwest Quarter, Section 23,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (5) Northwest Quarter Northeast Quarter, Section 27,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (6) Southwest Quarter Southwest Quarter, Section 33,
Township 7 North, Range 35 E.B.M., Jefferson County.

(7) Lot 4 (Northwest Quarter Northwest Quarter), Section 3,
Township 6 North, Range 35 E.B.M., Jefferson County.

- c. Description of diverting works - The Jackett Canal Company diverts both its decreed water rights from Camas Creek as well as the decreed and licensed rights from its seven wells at two locations on Camas Creek. The company maintains two pumps on Camas Creek in the Southwest Quarter of the Southwest Quarter of Section 33, Township 7 North, Range 35 E.B.M., and five pumps on Camas Creek in Lot 4 (Northwest Quarter Northwest Quarter), Section 3, Township 6 North, Range 35 E.B.M. The seven wells are located two to three miles north and east of the company's diversions from Camas Creek. Each of the wells discharges water into ditches which convey the well water into the Independent Ditch which empties into Camas Creek upstream from the two diversion points of the company. The Independent Ditch commences at a point in the Southwest Quarter of the Southwest Quarter of Section 13 where several wells are located at a point known as Buck Springs and flows in a generally southwest direction to the center of Section 27, Township 7 North, Range 35 E.B.M., and then directly south for approximately a mile where it discharges into Camas Creek in Section 34, Township 7 North, Range 35 E.B.M. In addition to assisting with the maintenance of the Independent Ditch and the small conveyances which discharge into the Independent Ditch, as well as the Jackett Canal system for distributing water to the lands of the stockholders south of Camas Creek, the company owns and maintains seven wells and fourteen pumps with electric motors ranging in size from 50 hp down to 20 hp.
- d. Describe the reasons for applying for a change in the points of diversion - The purpose of this entire application for

transfer is to conform the records of the department to the actual practice of the company which has been carried on since its organization in 1956. Some of the points of diversion as far as the actual records are concerned may be somewhat confusing because of the changes that were made at that time, as well as a result of the numerous deeds which the company received from individual stockholders as well as the Independent Water Users of Mud Lake, Inc. at the time of the organization. In fact, in reviewing the language of the deed from Independent Water Users of Mud Lake, Inc. to Jackett Canal Company in 1956, we observed that the deed purported to convey an undivided one-third interest in the wells and pumps and other diverting works, as well as the conveyance system and water right itself. There are actually five wells at Buck Springs, all located in the Southwest Quarter of the Southwest Quarter of Section 13, Township 7 North, Range 35 E.B.M. In actual practice, Jackett Canal Company has been treated as owning the two western most wells and Independent Water Users of Mud Lake, Inc. the three eastern most wells. In order to clarify this situation, the two companies have exchanged quit claim deeds on these wells, again to make the records conform to the actual practice. Copies of those deeds are enclosed with this application.

2. Change in place of use:

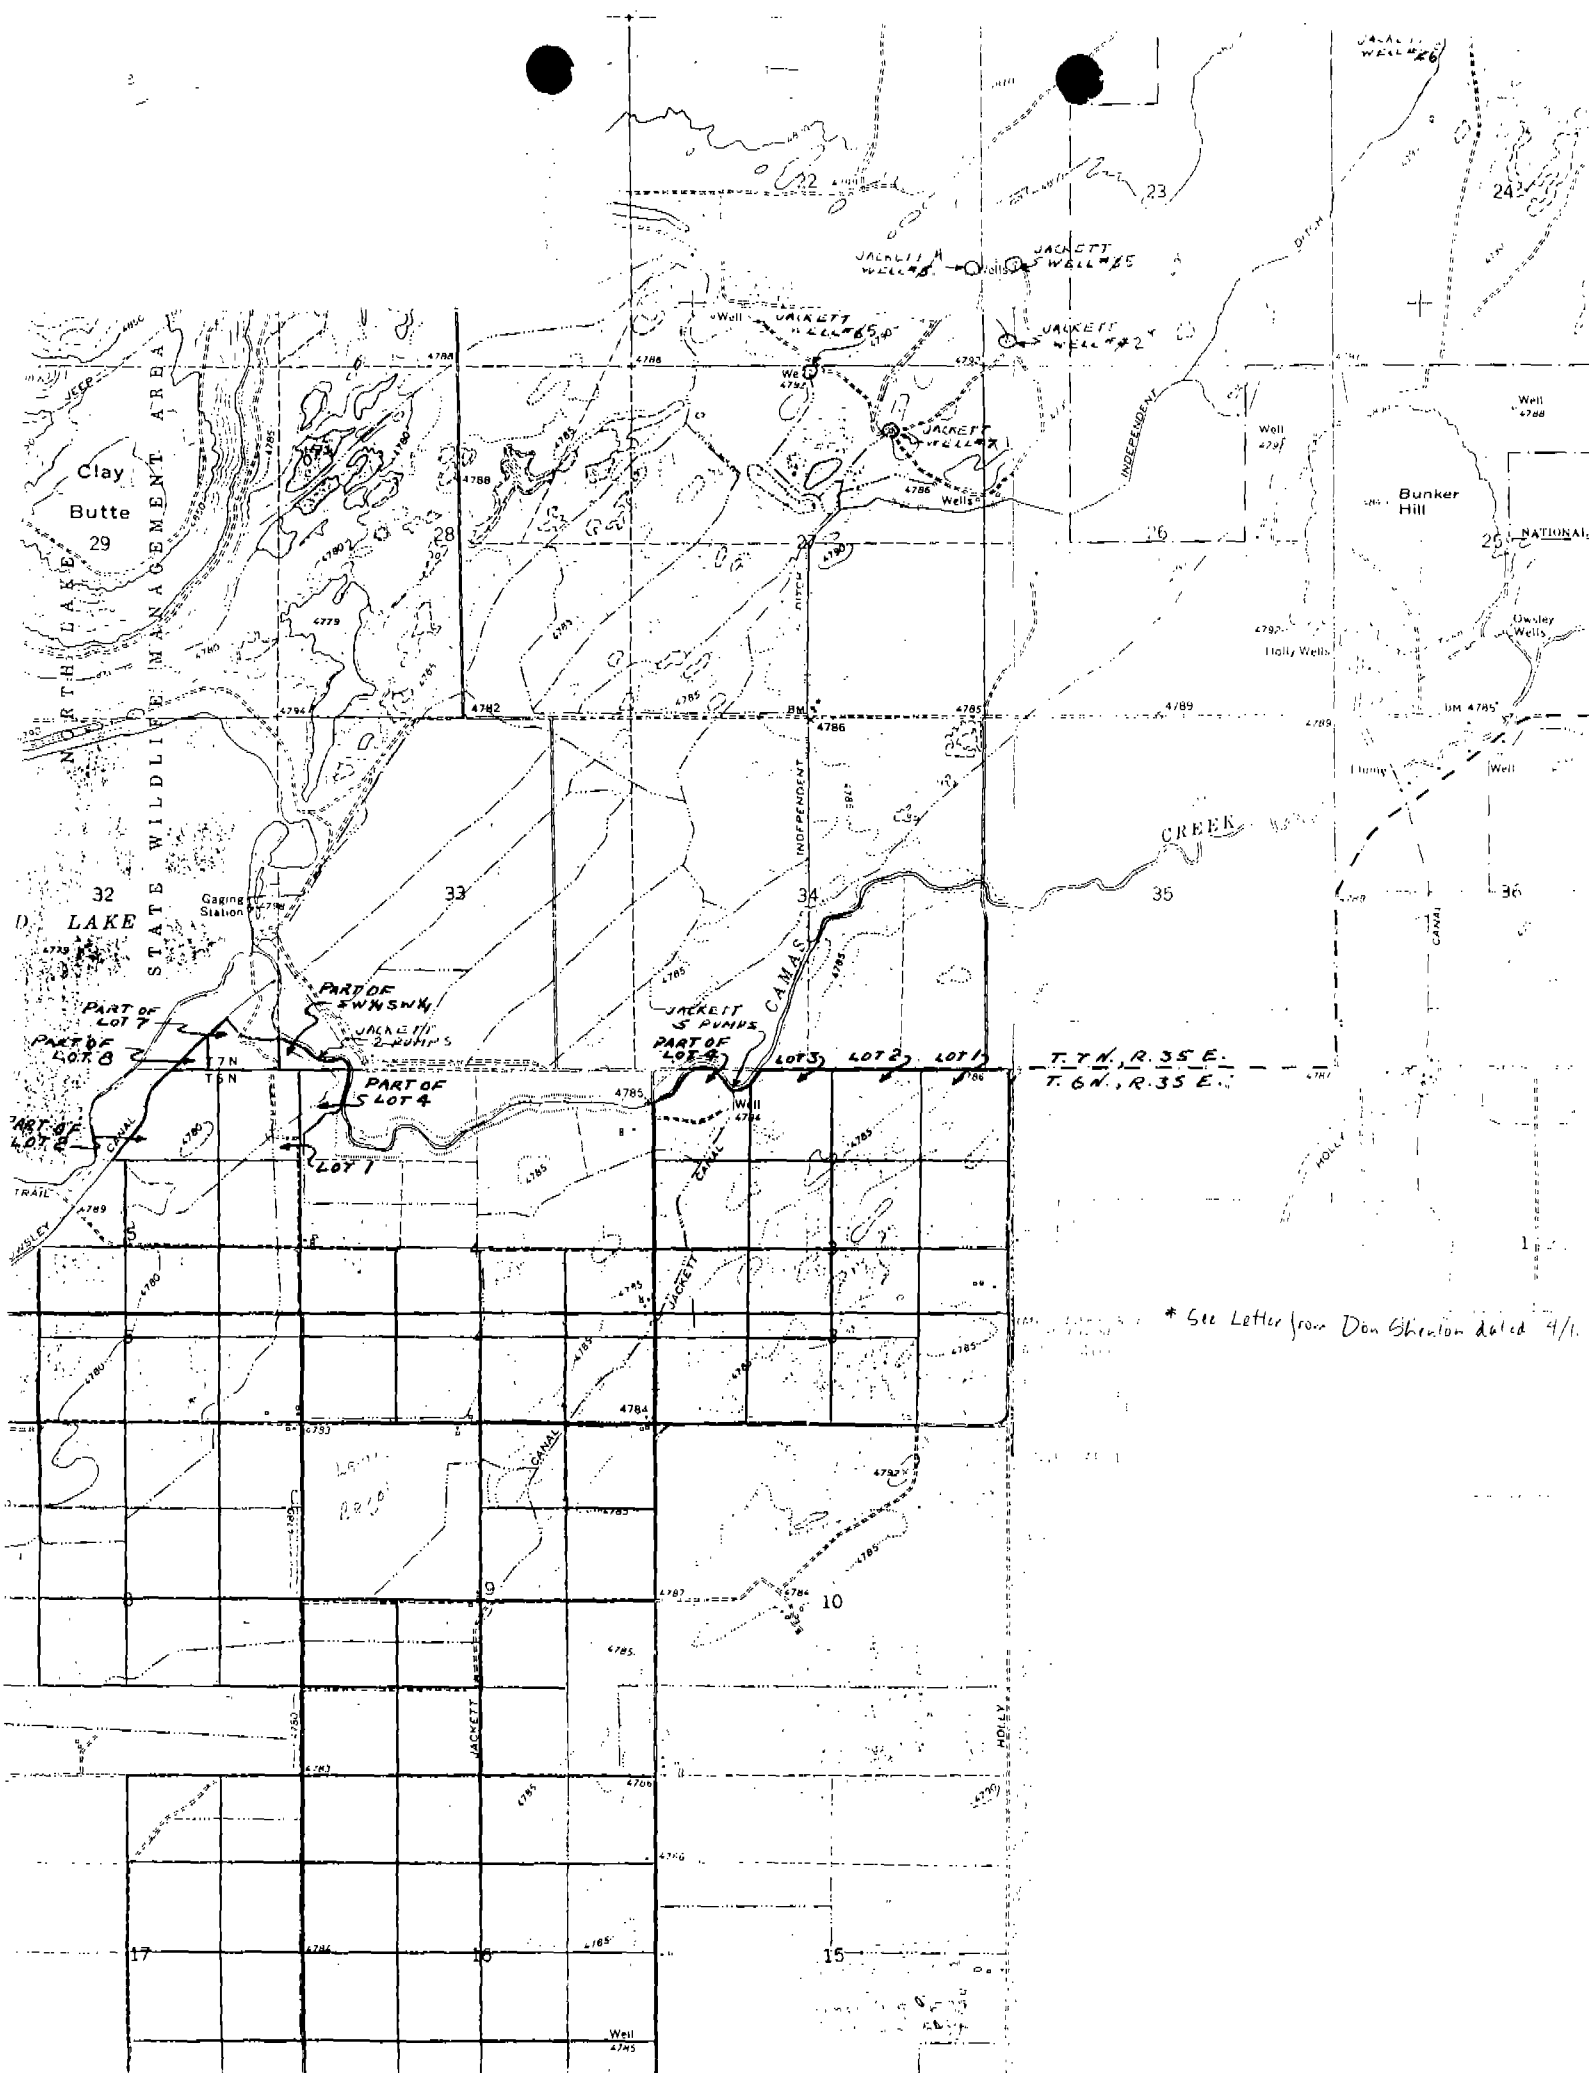

- a. Describe the lands or place of use to which the right will be transferred:

Total number of acres to be irrigated 3,107.23

- b. Draw a map indicating the new points of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township, and range number. The attached map showing lands of the company irrigated by its stockholders colored in yellow with points of diversion and location of wells shown in blue.
3. Remarks - An attempt has been made by the applicant to identify the exact property of its stockholders upon which the company water is to be used, as well as the points of diversion. Essentially, the actual practice of the company has been as shown for a period of nearly 22 years. Recently, when the company began to review its water rights, it was discovered that although they were deeded to the company in 1956, no effort had been made to transfer the water rights so that an equal amount was appurtenant to each acre of ground within the system. Indeed, we discovered that the records would show that some land had several water rights appurtenant and some of the company land had no water rights appurtenant. It is the desire and intention of the company that all of the company's water rights be transferred to all of the company's lands so that each acre has an equal amount of each of the company's rights appurtenant to it since this is the way the company has actually operated.

* See Letter from Don Shenton dated 4/1.

February 16, 1961

Mr. Donald W. Shenton, Watermaster
Water District No. 66
Dubois, Idaho

Dear Mr. Shenton:

You have requested of the Department of Reclamation answers to the following questions. We will try to answer your questions to the best of our ability.

Question 1. "Who is current owner of well water pumped at Buck Springs with license number or permit number 17690 and 17763?"

The Independent Water Users of Mud Lake, Inc. are the present owners of water and owners of Permit No. 17690 and 17763 by assignment dated December 23, 1936.

Question 2. "I would like all information on Pauls Dam on Modoc Creek. How long can it be stored, by what authority, controlled by whom, what priority rating, and how many acre feet?"

Pauls Dam is supposed to have a capacity of 227 acre feet decreed water right, and 12 cubic feet per second under Decree No. 102 to fill said reservoir and for use on land under the decree. Stored water can be released at the owners request. Weirs should be installed above and below the reservoir in order to measure the natural flow passing through the reservoir. The principal idea that no owners of storage water rights is to interfere with natural flow or decreed water which are prior in right during the irrigation season.

Question 3. "I would like all information as above on 3 Mile Reservoir, it seems as though information in the files on this is limited and no one seems to know anything about it."

The records in this department show no record for any reservoir permit to store water on 3 Mile Creek. Mr. Loy Johnson reports that it is just an overflow dam of very little consequence.

Doc Source WD 31 Microfilm
1961 Right

Question 4 - "Is it possible for well water that is pumped from wells into the channel of Camas Creek, and then into Mud Lake and stored with natural flow at or to be eligible for voting rights by the owners at the annual district water meeting?"
 "I might add that this water is paid for by regular assessment along with natural flow at or by the district. It is also controlled, regulated, re-regulated and diverted to the land used on, after evaporation and loss is taken off by the Watermaster of the district."

"Each person present owning or having the use of water for the ensuing irrigation season of any adjudicated right equal to 10 miners inches of water in the stream or water supply comprising such water district, shall be entitled to one vote." Only adjudicated rights have a right to vote in the watermaster's election. It makes no difference as to the source of water supply, either from wells or natural flow, as long as rights are adjudicated.

Question 5 - "Does Jackett Canal Company own an undivided 1/3 of water pumped from Buck Springs? Do they have 1/3 of water pumped by Independent Water Users? There seems to be a serious conflict on this question."

It is our understanding that at the present time Jackett Canal Company has two wells in the Buck Spring area and the Independent Water Users have three wells. It is also our understanding that the Jackett Canal Company withdrew from the Independent Water Users Association. There were three open and flowing wells at Buck Springs. It was decided and agreed upon that Mr. Jackett would receive the west well of the three and the Independent Water Users would have the center and east well of the three. Since the division of the wells each party has drilled one more well and has placed a pump on all five wells. Each party is to receive what water each develops and water is not to be divided on a fractional or percentage basis. The transportation loss from these wells to the Lake should be figured on a percentage basis for each party, and handled independently.

Question 6 - "Is it permissible for the water users at the annual meeting to allot money for improvements on stream beds and channels and for channel work and cleaning? Would this be permissible if it would pass a vote from the water users?"

In reply to this question we quote from a letter from the Department of Reclamation addressed to H. R. Harn, Secretary, Water District No. 66, under date of July 18, 1953.

Feb. 16, 1961

"Question 1. If dredging or bulldozing work is required to clear a channel of brush are the charges assessed against the entire district.

More factual data would have to be received relative to the location of your proposed channel clearing project before giving a final answer; however, from our knowledge of your district, said proposed work would probably be on the head waters of Camas Creek, but we see no betterment to pumping rights adjacent to Mud Lake; therefore would state that the expense of said proposed work could not be assessed against the entire district.

In the first place, we do not think that it was the intent of the Legislature at the time Section 42-612, Idaho Code was enacted, for the watermaster fund to be used for any other purpose than to provide funds for the watermaster's salary and expense. However, it does seem sensible that it would be a good way to collect money for work such as you propose. If money was used to pay for construction or maintenance work from the watermaster's fund, it would require a resolution voted and passed on by the water users at the regular meeting as set by statutes; that is, the statutory meeting held on the first Monday in March of each year.

No other special meeting would be called by the water users to raise funds by the water district that would be a legal assessment against the water users. The advisory board has no power to create a debt against the users of the water district. A special meeting of the water users could be called at any time and a separate fund, other than the watermaster's fund, could be raised for the purpose of taking care of special work; however, funds would probably have to be raised by subscription from water users who would receive a betterment from said work."

Question 7 - "Could the district water users by a vote, change the voting rights to the users, from the present basis of one vote per 10 miners inches, to 1 vote per every 24-hour second feet."

The answer to this question is "No." It is necessary to follow the statutes in this regard.

Hoping this letter answers your present inquiries. As problems develop during the coming season, please feel free to write this department for information.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

DATE RECEIVED 28 Mar 1988CK # 277

AMOUNT \$

YES

NO

1. Is the name and address complete with zip code? ☒ YES ☐ NO
2. Is a priority date entered? ☒ YES ☐ NO
- Is the water use exempt from the Permit requirements, or if it is not exempt, has a Permit been approved or a License issued?
 A Permit is required: (1) for groundwater developed after March 25, 1963 (except single family domestic and stockwater wells using less than 13,000 gpd), or (2) for surface water developed after May 20, 1971 (except for instream stockwater). USE CARE IF CLAIM IS RETURNED. REFER TO ADJUDICATION MEMOS # 1 (ADJ. CLAIMS/APPLICATIONS) AND # 9 (REJECTION OF CLAIMS). EXPLAIN IN COMMENTS. ☒ YES ☐ NO
3. (a) Is a source entered? ☒ YES ☐ NO
 (b) Is a tributary to entered? (if required) ☐ YES ☒ N/A
4. Is the legal description of the p.d. sufficient? ☒ YES ☐ NO
5. Is there a description of the diverting works? ☒ YES ☐ NO
6. Are the water uses appropriate for the form? The short form is limited to domestic and stockwater uses with direct diversion. All claims that include storage or instream stockwater must use long form. ☒ YES ☐ NO
 Is the period of use included? ☒ YES ☐ NO
 Is a quantity claimed for each use? ☒ YES ☐ NO
7. Is a total quantity claimed entered? ☒ YES ☐ NO
8. If required is a consumptive use entered? ☐ YES ☒ N/A
 Is the consumptive use correct? ☐ YES ☒ N/A
9. Are the non-irrigation uses listed properly? If this claim is on the short form, and more than one domestic use is listed, single ownership must be stated. If not under single ownership, see Adjudication Memo # 4. ☐ YES ☒ N/A
10. Is (are) the place(s) of use entered? ☒ YES ☐ NO
11. Is (are) the county(ies) entered? ☒ YES ☐ NO
12. Is the ownership of p.u. checked? ☒ YES ☐ NO
13. Are other water rights listed or "none" indicated? ☒ YES ☐ NO
14. If required, are remarks correct? (If the claimant does not own the place of use, authority for filing the claim must be explained in the remarks.) ☐ YES ☒ N/A
15. Is the basis of the claim checked? ☒ YES ☐ NO
16. Is the claim signed by the claimant, and is the signature appropriate? (If an individual is the claimant, has that individual signed the claim, or if an organization is the claimant, is the organization signature block complete?) ☒ YES ☐ NO
- Has the claim been signed, sealed, and dated by a notary? ☒ YES ☐ NO
- Was this claim filed on time, or was an extension granted? ☒ YES ☐ NO
- Is the fee enclosed correct? ☒ YES ☐ Exempt
- If this claim is based on an existing water right, has the identification number been entered? ☒ YES ☐ N/A
- Should this claim be receipted and data entered? ☒ YES ☐ NO

Claim checked by: Emil

Comments: Letter to claimant - flow of use & map are not consistent
- Flag for field inspection.

Enclosure

NOV 29 1988
FBI - IDAHO FALLS

all notices.

R31-00135/00134/00143/00144/00190/00336/00337/02289/02290/
~~02297~~/02310/02317A/02317B/02321.

Place of use entered in accordance with map, and not
Attachment B. ~~Based on the map~~ ^{Comparison of} ~~the map~~ ^{the}
map and Attachment B ~~revealed~~ ^{revealed} 3 discrepancies.

1. The 40 acres in ~~the~~ ^{the} Twp. 6N Rge 35E Sec 5
SE $\frac{1}{4}$ SW $\frac{1}{4}$ was illustrated as a place of use ^{on map} but was
not listed on Attachment B. (data entered)
2. The 40 acres in Twp 6N Rge 35E Sec 8 NW $\frac{1}{4}$ SW $\frac{1}{4}$
was listed on Attachment B but not illustrated
on the map. (not data entered).
3. The 40 acres in Twp 6N Rge 35E Sec 8 NE $\frac{1}{4}$ SW $\frac{1}{4}$
was illustrated as place of use on map but was
not listed on Attachment B. (data entered).

Notices with ground water as source.

- The points of diversion were entered in accordance
with map, and not the legal description described
in Item 4 of the notices. Comparison of the
map and Item 4 reveal two discrepancies.
