COMMENTS:

Dear Ernie,
After our discussion the other day wherein you "temporarily" drew the lines in covering the property west of the creek, I had a chance to talk to my client concerning the same. He is very willing to accept that change, if it can settle the matter. You also asked whether he has the ability to water everything west of the creek, and he answered in the affirmative. Please let me know if this could be settled upon the basis that property west of the creek would have a water right.

Sincerely yours,
Jerry

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

I disagree with the proposed irrigation quantity of irrigation and stockwater equalling only 0.850 C.F.S. I also disagree that the place of use consists of only 40 acres.

2. Describe the changes you wish to make in the proposed recommendation:

Irrigation quantity should be: ^{→ 1.2 Bm} 1/2 C.F.S. of irrigation & stockwater. Place of use should be the W 1/2 of NW 1/2 (76 acres) T13NR39ES32.

3. Give a brief explanation as to why you disagree with these portions:

This water right is based upon a decree with a priority date of 5/1/1899 and which continues to be valid and applied to a beneficial use through this adjudication.

 I AGREE with this proposed recommendation: no changes need to be made.
