Memorandum

Date: December 21, 2000

From: Craig Saxton

Subject: Spring High Water Rights

Spoke with Greg Shenton about FWS Camas Creek rights 31-00274 and 31-00275 on December 7, 2000. Season of use on these rights is defined as the Spring High Water Season. Greg said that he did not have a set date that he delivered these rights. Greg said that he stopped deliver on the two rights as soon as he had to cut any right. Basically, they are the first to be cut, when water flow starts to decrease.

In a discussion with Carter Fritschle on December 19, 2000, I was advised to recommend the IDWR standard season of use for the area. Also to recommend the decreed priority date, with a remark stating:

PURSUANT TO A CALL IN TIMES OF SCARCITY, THIS RIGHT HAS THE PRIORITY DATE OF _____.

The priority date filled in the blank is November 11, 1924. This priority date is one day junior to the most junior decreed right delivered from Camas Creek based on water master reports.

Yes, that would be my suggestion since we don't have a specific cut off date. Candice had already left for the day so I sent her an email about using the remark "PURSUANT TO A CALL IN TIMES OF SCARCITY, THIS RIGHT HAS A PRIORITY DATE OF ____." My only concern is that this remark has been used only as a settlement tool, something that was held in "reserve" so to speak. However, from what we discussed, I think it is appropriate to use here, but that may change after Candice has had time to mull it over.

Sorry,

Re: The Spring High Water Season of Use

So we then would put the full irrigation Season of use on the recommendation (ie. 4/1 to 10/31)?
