Mr Sanders -

All the extra acres
went to 31-10466

because 31-2296 was
recommenced as

licensed.

Bryce Contor

MEMORANDUM

To: 31-10466
CC: 31-2296
Fr: Bryce Contor
Date: 3/27/2001

Re: Affidavit

The affidavit does not make it clear, but I visited with Mr. Sanders and his affidavit does speak to personal knowledge. He lived near the Becker place prior to purchasing it and in fact rented pasture from Becker through the 1960's on the very land in question.

RE: ADDITION OF ATTORNEYS TO CLAIMS

Dear Claimants:

Attorneys John Bloomquist and Patti Rowland have been added to your claims per your request.

If you have any questions feel free to contact this office at (208) 525-7161.

Respectfully submitted,

Cheri Vandermeulen
Records Clerk

**NOTICE OF ERROR
REPLY**

Please type or print clearly, fill out this form completely and mail

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: March 9, 2001

Water right number: 31-296

DAVID J HAGENBARTH
PO BOX 1128
DILLON MT 59725
Telephone Number: (406)683-2163

MARGARET HAGENBARTH
PO BOX 1128
DILLON MT 59725

JAMES F HAGENBARTH
PO BOX 1128
DILLON MT 59725
Telephone Number: (406)683-2163

1. Describe the portion of the proposed recommendation with which you disagree (e.g priority date, period of use, source):
Point of Diversions

2. Describe the changes you wish to make in the proposed recommendation:
1) Change The POD in 12N,37E, Sec. 19 NWSENE to the SWSENE.
2) Possibly add a POD in the NENENE of Sec. 19, 12N,37E.

3. Give a brief explanation as to why you disagree with these portions:
1) My original filing was in error and changing number 1) better reflects reality.
2) The POD described in change 2) is the point where East Threemile splits into two channels. The Channel to the east which services the POD described in change 1) is serviced by this channel which is not the main channel of the East Fork. At times I must divert water into this minor east channel to satisfy the diversion needs in the SWSENE of Section 19.

____ I AGREE with this proposed recommendation; no changes need to be made.

RE: Three Mile Creek-Water System

To Whom it may concern:

I am representing Margaret, David J., and James F. Hagenbarth in the filing of water rights in the Snake River Basin Water System. The information contained below is in regard to water rights owned and used by the above in Three Mile Creek, a tributary to Rattlesnake Creek, which is a tributary to Beaver Creek. Three Mile Creek has the same characteristics as most creeks in this area in that the spring flow is tremendous and the summer flow is very minimal, consequently the total c.f.s.'s appropriated seem rather large for the place of use in regard to one miners's inch per acre. This maximum use is short lived. In early spring the maximum flow of water claimed has been used on the lands designated, but only for a short period of time. Later in the summer only a portion of the older rights can be filled.

All the claimants' diverted rights on Three Mile Creek are pooled and used to irrigate and provide stockwater on the designated acres. Five points of diversion are used by the claimants' to divert waters from their rights to the place of use. This use depends upon the amount of water available and the kind and place of use desired. The attached map identifies the points of diversion, conveyance facilities and the places of use for the various uses claimed. By using various combinations of points of diversions, water from any of the claimants' water rights can be delivered to any of the lands claimed.

The points of diversion used to divert the waters of Three Mile Creek consist of an array of rock dams, culverts, earthen dikes and wooden structures. Weirs measure the flow of water onto the claimants' land. The points of diversion which service the claimants' water delivery system are all in Township 12 North, Range 37 East and can be described as follows (see map):

IA-SWSE of Section 18
2A-NENE of Section 19
2B-SENE of Section 19
IB-NESW of Section 19
IC-SWSE of Section 19.

IC will be used as the primary point of diversion for all water rights.

The water put to beneficial use via the claimants' points of diversion and water delivery system is claimed from a combination of the following water rights decreed by the Federal District Court in the Suave Decree, #635 to the claimants' predecessors:

1884-April 1 3.2 c.f.s. 31-00297
1892-April 1 3.2 c.f.s. 31-00296
1910-August 22 .8 c.f.s. 31-00299

MICROFILMED

NOV 17 1992

Claimants' Three Mile Water Rights Continued:

1913-April 1 2.7 c.f.s. 31-00300

1913-April 1 3.2 c.f.s. 31-00301

These water rights were researched by the claimants' and ownership was determined by present and past use of the water from these rights on the claimants' and their predecessors' lands. Two of the original rights in the Suave Decree have been split because the claimants' do not own certain portions of land under said priorities; 1910-August 22, .8 c.f.s., and 1913-April 1 2.7 c.f.s..

Each water right by priority will be filed on separately by the claimants, but this explanation will be attached to each filing in order to tie the rights together as they have been used since the Decree 58 years ago.

Sincerely,

James F. Hagenbarth
